The New Objectivity:

New Objectivity Sergiusz Michalski, 2003 Drawing on new research from local archives as well as reinterpretations of published literature Power and the People describes how England remained governable between 1525 and 1640 despite the wars famine epidemics and dynastic and religious crises of the period The book surveys the mechanisms of authority at various levels from the street and alehouse to the manor and the royal court Maintaining order was a difficult challenge given that England had no standing army or professional police and Alison Wall investigates everything from the roles of village constables to the social cohesiveness that came from civic celebrations and participatory politics Her book provides students with a rich perspective on the social world and political culture of early modern England

New Objectivity Olaf Peters, 2025-02-20 On the eve of its subject's centennial this richly illustrated and meticulously researched catalog celebrates and reconsiders one of the most significant artistic movements of the twentieth century Gustav F Hartlaub's 1925 exhibition Neue Sachlichkeit New Objectivity for the Kunsthalle Mannheim was a pivotal event that showcased a new artistic movement in Germany characterized by its critical realism social commentary and detailed depiction of contemporary life it marked a significant departure from Expressionism's emotional intensity But it was divided by two philosophies the unflinching and socially critical Verists Otto Dix George Grosz Georg Scholz and others and the Classicists Alexander Kanoldt Georg Schrimpf and Christian Schad who focused on harmony and beauty This wide ranging survey explores the tension between these camps and interprets it as a coherent chapter in art history Essays by leading experts shed new light on the movement through the lens of regionality while considering a wide spectrum of media architecture design drawings film paintings photography and philosophy Their illuminating texts are accompanied by stunning reproductions of works such as Otto Dix's Portrait of the Lawyer Dr Fritz Glaser Georg Scholz's Of Things to Come and Marcel Breuer's Chair B 33 Impeccably produced and researched this volume captures the ways that the New Objectivity proponents mirrored the Weimar period's cultural political and social complexities

The Oxford Handbook of Music and the Middlebrow Kate Guthrie, Christopher Chowrimootoo, 2025-03-06 The Oxford Handbook of Music and the Middlebrow takes a fresh look at the history of nineteenth and twentieth century music Offering an alternative to the traditional focus on either highbrow modernism on the one hand or lowbrow popular music on the other its novel view centers on the wealth of previously overlooked products and practices that bridged the space between these cultural extremes While seminal attempts to recover middlebrow culture came from literary critics and historians middlebrow studies is now a burgeoning field within musicology As the first essay collection on this topic this handbook has two aims first it seeks to explore the middlebrow as a historical phenomenon excavating the kinds of critical writings marketing practices and compositional styles with which it was associated By reanimating a range of musical practices and products from symphonic concerts to Broadway musicals opera criticism to rock journalism and modern jazz to pop rock the contributors investigate how artists critics and audiences

breached the divide from both above and below In the process the handbook chapters push the boundaries of middlebrow studies and demonstrate the category's relevance outside of the mid twentieth century Anglophone world by delving into the nineteenth century interrogating the present day and looking to Germany Russia and beyond The handbook's second aim is to complicate the disciplinary divisions that have flowed from the entrenched oppositions between high and low genres Breaking new ground by bringing together scholars of classical and popular music these chapters trace common middlebrow themes across traditional disciplinary boundaries Across this broad vista contributors account for the kinds of syntheses overlaps and juxtapositions that made the cultural middle such a richly textured and endlessly contested terrain

Conceptual Art Alexander Alberro, Blake Stimson, 2000-08-25 This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the conceptual art movement Compared to other avant garde movements that emerged in the 1960s conceptual art has received relatively little serious attention by art historians and critics of the past twenty five years in part because of the difficult intellectual nature of the art This lack of attention is particularly striking given the tremendous influence of conceptual art on the art of the last fifteen years on critical discussion surrounding postmodernism and on the use of theory by artists curators critics and historians This landmark anthology collects for the first time the key historical documents that helped give definition and purpose to the movement It also contains more recent memoirs by participants as well as critical histories of the period by some of today's leading artists and art historians Many of the essays and artists statements have been translated into English specifically for this volume A good portion of the exchange between artists critics and theorists took place in difficult to find limited edition catalogs small journals and private correspondence These influential documents are gathered here for the first time along with a number of previously unpublished essays and interviews Contributors Alexander Alberro Art Language Terry Atkinson Michael Baldwin Robert Barry Gregory Battcock Mel Bochner Sigmund Bode Georges Boudaille Marcel Broodthaers Benjamin Buchloh Daniel Buren Victor Burgin Ian Burn Jack Burnham Luis Camnitzer John Chandler Sarah Charlesworth Michel Clauro Jean Clay Michael Corris Eduardo Costa Thomas Crow Hanne Darboven Ra l Escari Piero Gilardi Dan Graham Maria Teresa Gramuglio Hans Haacke Charles Harrison Roberto Jacoby Mary Kelly Joseph Kosuth Max Kozloff Christine Kozlov Sol LeWitt Lucy Lippard Lee Lozano Kynaston McShine Cildo Meireles Catherine Millet Olivier Mosset John Murphy H lio Oiticica Michel Parmentier Adrian Piper Yvonne Rainer Mari Carmen Ramirez Nicolas Rosa Harold Rosenberg Martha Rosler Allan Sekula Jeanne Siegel Seth Siegelaub Terry Smith Robert Smithson Athena Tacha Spear Blake Stimson Niele Toroni Mierle Ukeles Jeff Wall Rolf Wedewer Ian Wilson **Creative Photography** Helmut Gernsheim, 1991-01-01 First authoritative comprehensive study of photography from a purely aesthetic point of view spanning its history from daguerreotypes to modern photo reportage 240 superb photographs First inexpensive paperback edition **The New Social Science** Leonard Dupee White, 1930 **Camera Work** , 1913 Otto Dix and the New Objectivity Otto Dix, 2012 This is the first publication
