Tokyo Calling:

Tokyo Calling Ivan Chapman, 1990 Treason on the Airwaves Judith Keene, 2008-12-30 This work traces the extraordinary journeys of three World War II radio broadcasters in Germany and Japan whose wartime choices became treason in Britain Australia and the United States John Amery a member of a well connected British family joined Hitler's propagandists in Berlin He was executed for treason by Britain after the war Charles Cousens was a soldier in Japanese captivity when he was put to work on Radio Tokyo with a team of Allied POWs Cousens was later tried as a traitor in Australia Iva Toguri better known as Tokyo Rose was an American student visiting Japan when war broke out She broadcast her English show on Radio Tokyo out of necessity rather than conviction The United States jailed Toguri for treason Through these powerful stories this work not only sheds new light on the history of wartime radio broadcasting in Germany and Japan but also examines the laws of treason in Britain Australia and the United States and the ways in which trials such as these helped shape modern day treason trials All three accounts provoke thoughtful questions as to the nature of justice and the justice of retribution This work traces the extraordinary journeys of three World War II radio broadcasters in Germany and Japan whose wartime choices became treason in Britain Australia and the United States **Quarterly Review of Military Literature** ,1946 Review of Current Military Literature ,1946 **Japanese Urban System** Yuji Murayama, 2013-11-11 This book is an attempt to explain Japanese regional structure and associated dynamism in terms of urban systems It is extremely effective to use the urban systems approach to explain the regional changes in today's Japan which is undergoing changes wrought by economic globalization and the information revolution This is because the transformation into a service economy has become the key component of the economic activities of cities linkages are being mutually strengthened and regional development is being determined by the interdependency of cities Readers hoping to gain an understanding of the regional geography of Japan may feel that the structure and content of this book are lacking something However it is not the intention of this book to systematically paint a total geographical image of Japan within the context of East Asia Instead by focusing on urban systems theory it might be possible to theorize about the factors related to the changing geography of Japan such as the growth and decline processes of Japanese urban systems the strengthening of ties among cities and associated factors and the expansion of socioeconomic exchanges with cities overseas from a perspective that is different from the conventional approach *Belt and Braces* Euan Rose, 2014-02-01 A rags to riches biography amusing and inspiring in equal measure *Belt and Braces* chronicles the life of Douglas Clark a poorly educated man who was born into poverty in a country village and went on to become an inspirationally successful businessman From mending lawnmowers as a child to running a huge network of motor dealerships and a property empire as his journey progressed His methods were home grown and unconventional his risk taking enormous but always calculated and he always played the game by his own rules His lifelong caveat being that once a course of action was decided upon then he applied belt and braces to it In essence this

meant contingency against every conceivable adversity Alongside the business growth his private life exploits will raise many a smile The book covers seven decades up to the present and parallels what was happening in Doug s life alongside national and international events You don t need to be a car buff or even a budding entrepreneur to appreciate it merely enjoy the journey through life of a very talented amusing and unique man *Watching the Sun Rise* Jacqui Murray,2004-01-01

Historians have long claimed that a tradition of fear of Japan dominated Australian thinking about foreign affairs and defense after Japan s defeat of Russia in 1905 and that this fear remained widespread throughout the Australian population until the Pacific War This study of Australian reporting on Japan challenges that claim by exposing a culture of state censorship intimidation of the media and neglect of official public discussion of foreign affairs in the years 1931 1941 which resulted in newspapers radio and news reels projecting a collective national consciousness of Japan as a nation of little import despite very real fears in senior political ranks about Japanese designs on Australia Jacqui Murray s argument for the Australian media s underestimation of Japan s threat is sustained by close examination of media practices publications and broadcasts which clearly show misleading representations of Japan before the Pacific War *Watching the Sun Rise* details not only government peace time media censorship but also war time propaganda flows from Australian British and Japanese sources into the Australian media and examples of cooperation and or espionage among media personnel **The Far Eastern**
