

WEIGHT LOSS DO'S AND DON'TS CHECKLIST

Ready to tackle those extra pounds? Start with a plan. The more you prepare for your weight loss journey, the more successful you'll likely be. Follow these "do's" and "don'ts" to get started.

DO'S

- KEEP A FOOD DIARY**
People often underestimate how much they eat in a day. Write down what you eat and when you eat it to account for all meals, snacks, drinks, and desserts.
- DRINK PLENTY OF WATER**
Drink at least 6 glasses per day to stay hydrated, feel full, and increase the rate at which you burn calories.
- MAKE A MEAL PLAN**
Create a menu of healthy foods for the week. Take it with you when you shop, and only purchase items on the list so you stick to it.
- EAT FIBER**
Keep your gut healthy and burn more belly fat with plenty of fiber. Find it in almonds, flaxseed, and veggies.
- SCRAP JUNK FOOD FOR HEALTHY FOOD**
Swap potato chips for popcorn and bacon burgers for grilled salmon. Fill your plate with veggies, whole grains, and lean meats to increase your metabolism and stabilize your blood pressure.
- EAT SOME FAT**
Healthy fats, like Omega-3 and Omega-6, help you burn body fat while maintaining muscle. They'll make you feel fuller and may reduce your absorption of carbohydrates.
- WATCH YOUR PORTION SIZE**
Eat less at mealtime or try eating smaller meals throughout the day. Fruits and vegetables should fill half your plate, with grains and protein on the other half.
- SLEEP BETTER**
A good 7 - 8 hours of sleep helps regulate your appetite hormones, so you recognize when you're full. Lack of sleep can decrease your metabolism.
- EXERCISE**
Regular physical exercise is imperative for weight loss success. It burns calories and increases lean body mass to rev up your metabolism.
- ADD VARIETY**
Find a wide range of healthy recipes and foods to try. Sticking with the same few foods can get boring and may drive you to make unhealthy choices.

Increasing evidence shows that nutrition also plays a crucial role in mental health outcomes. The complexities of causality and the underlying biological mechanisms are still being unraveled. Meanwhile, it is essential that today's mental health professionals be equipped to provide their clients with informed guidance on nutrition. Counsel clients on ways that diet can optimize mental health and recognize when to make referrals to registered dietitians or lifestyle medicine specialists.

Food Nutrition and Mental Health delves into the vital intersection of these key areas, providing a much-needed overview of the relevant topics. Organized into four sections, this guide explores the influence of macronutrients and micronutrients on mental health, alongside the impact of dietary patterns such as the Standard American Diet, the Mediterranean Diet, and the Planetary Health Diet on mental well-being. The connection between food insecurity, diet quality, and mental health rating scales and assessments to screen for food insecurity and available public health programs and resources. The effects of psychotropic medications on weight, eating disorders, and disordered eating, the gut-brain connection, and the microbiome's role in mental health. How activities such as cooking, gardening, and growing food can benefit physical and mental health. Each chapter concludes with Clinical Pearls that translate the most salient information into plans of action, as well as summarizing Key Chapter Points. While maintaining the scientific rigor required by clinicians, this book is accessible to a broader audience. **Food Nutrition and Mental Health** helps both professionals and their clients make sound nutritional choices that support mental health.

The Diet Trap Solution Judith S. Beck, Deborah Beck Busis, 2015-04-21. The New York Times bestselling author of *The Beck Diet Solution* teams up with her daughter and colleague at the Beck Institute for Cognitive Behavior to teach readers how to think their way thin, offering practical, proven tools for escaping common diet traps for good. Most diet programs work at first. But then life happens: stress, bad habits, holidays, travel, and we revert to bad habits, and the weight comes back. In this invaluable book, Dr. Judith Beck offers the solution to break free from these common diet traps and keep the weight off for life. Dr. Beck explains that when it comes to losing weight, it's not just about what we eat. It's also about how we think. To consistently eat differently, we must learn to think differently. Diets fail us because they don't offer effective strategies for overcoming the common traps: emotional eating, social pressure, dining out, that can derail us. Now she and her daughter, Deborah Beck Busis, share the techniques they have successfully used with thousands of clients, revealing how to overcome the thoughts and behaviors that have held us back. With *The Diet Trap Solution*, readers on any diet regimen can learn to identify their specific diet traps and create action plans to strengthen their resistance muscle, making losing weight easy, sustainable, and enjoyable.
