**Whose Goals Whose Aspirations** Stephen M. Fishman, 2002-10 Ever since Horace Mann promoted state supported schooling in the 1850s the aims of U S public education have been the subject of heated national debate **Whose Goals Whose Aspirations** joins this debate by exploring clashing educational aims in a discipline based university classroom and the consequences of these clashes for underprepared writers In this close up look at a White middle class teacher and his ethnically diverse students Fishman and McCarthy examine not only the role of Standard English in college writing instruction but also the underlying and highly charged issues of multiculturalism race cognizance and social class The Human Quest for Meaning Paul T. P. Wong, 2013-06-19 The first edition of The Human Quest for Meaning was a major publication on the empirical research of meaning in life and its vital role in well being resilience and psychotherapy This new edition continues that quest and seeks to answer the questions what is the meaning of life How do we explain what constitutes meaningful relationships work and living The answers as the eminent scholars and practitioners who contributed to this text find are neither simple nor straightforward While seeking to clarify subjective vs objective meaning in 21 new and 7 revised chapters the authors also address the differences in cultural contexts and identify 8 different sources of meaning as well as at least 6 different stages in the process of the search for meaning They also address different perspectives including positive psychology self determination integrative narrative and relational perspectives to ensure that readers obtain the most thorough information possible Mental health practitioners will find the numerous meaning centered interventions such as the PURE and ABCDE methods highly useful in their own work with facilitating healing and personal growth in their clients The Human Quest for Meaning represents a bold new vision for the future of meaning oriented research and applications No one seeking to truly understand the human condition should be without it **Performance and Progress** Subramanian Rangan, 2015 The prevailing aspiration of business is performance while that of society is progress Capitalism both the paradigm and practice sits at the intersection of these dual aspirations and the essays in this volume explore its fraught status there Contributions to this volume address questions such as i what s the problem with capitalism ii is the problem just with the practice or with the very paradigm iii what is progress and who is responsible for it iv what evolution is required at the individual system and paradigm level so that enterprises and the executives who lead them may better integrate performance with progress and v whither consumers employees and investors in this evolution The book offers perspectives from two distinct intellectual domains social science and philosophy Scholars in social science including economics management and sociology tend to study performance Ideas of progress on the other hand tend to fall more under the purview of philosophers in particular social and political philosophers Further to obtain an insider s view on practice and possibilities the volume includes essays from a handful of thoughtful business leaders Research should consider not just how to make sustainability profitable but also how to make profitability and the modern economic system sustainable If we are to

better comprehend why the world is in protest to reflect on progress or dilemmas of trust we must appreciate the tenuous assumptions of modern microeconomics and markets and hear from modern philosophers about the basis and limits of rationality
