*Coworking Spaces* Janet Merkel, Dimitris Pettas, Vasilis Avdikos, 2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues. More specifically its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work i.e. self employment that leaves more and more workers exposed to precarity as they must organize and manage their own labor. Grounded in this perspective this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice. There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies. The aims of this collection are twofold. First it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non human actors as agents of change associated with coworking and the re organization of work and labor power. And second it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in which these spaces are situated. A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change. So it is about alternative narratives emancipation politics and the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts for the formation and maintenance of social relations. With this specific direction this collection aims to bring coworking research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships.

*European Narratives on Remote Working and Coworking During the COVID-19 Pandemic* Mina Akhavan, Marco Hölzel, Divya Leducq, 2023-05-02 This open access book offers a multidisciplinary and comprehensive perspective regarding the immediate and long term effects of the Covid 19 pandemic on coworking spaces in the European Region. The current pandemic has imposed several effects on work and spaces for work. Some are immediate effects and will last for a short time such as the closing down of the space some will last longer namely the reorganisation of the space to meet the physical distancing and some will stay for a long time remote working and hybrid working. Although the literature on coworking spaces and the effects of the pandemic is growing fast empirical studies are yet limited. Within this context this book seeks a twofold aim i) to contribute to the fast growing literature on coworking space and their effects at different scales ii) to present a multidisciplinary perspective about the effects of the yet lasting Corona pandemic effects on the patterns of remote working and consequently on coworking spaces.

*New Work. Auf der Suche nach dem Arbeitsplatz der Zukunft* Juliane Mohr, 2020-11-19 Masterarbeit aus dem Jahr 2020 im Fachbereich BWL Review of Business Studies Note 1,0 Brandenburgische Technische Universität Cottbus Sprache Deutsch Abstract Ziel dieser Masterarbeit ist es herauszufinden inwiefern Coworking Spaces der Arbeitsplatz der Zukunft sein können ob es eine Lösung für kleine sowie große deutsche Städte ist und wie dabei das Innovationspotential

ausgeschöpft werden kann. Das Buzzword New Work ist im Kontext des demografischen Wandels, der Globalisierung und des steigenden Bedürfnisses nach einer Work Life Balance nicht mehr wegzudenken. Viele junge Menschen ziehen für ein Studium oder Arbeit in Großstädte. Das führt zu einem immer größeren Raumangel auch in der Arbeitswelt. Modelle wie die der Sharing Economy sind daher notwendig. Coworking Spaces stellen dabei die Schnittstelle der geteilten Arbeitsräume dar. Doch auch der soziale Aspekt in Großstädten wird immer wichtiger. Das Arbeitsplatzmodell Coworking Spaces vereint dementsprechend die Teilung von Arbeitsraum und dem gewünschten Community Aspekt. Zur Prüfung des Ist Zustandes in Coworking Spaces sowie deren Potential wurden im Rahmen einer qualitativen Befragung fünf ExpertInnen aus der Praxis befragt. Die Ergebnisse zeigen, dass physische und soziale Aspekte von Coworking eng miteinander verknüpft sind und die Vorteile für CoworkerInnen gegenüber Herausforderungen überwiegen.

**Lifespan** David A. Sinclair, Matthew D. LaPlante, 2019-09-10. A NEW YORK TIMES BESTSELLER. Brilliant and enthralling. The Wall Street Journal. A paradigm shifting book from an acclaimed Harvard Medical School scientist and one of Time's most influential people. It's a seemingly undeniable truth that aging is inevitable. But what if everything we've been taught to believe about aging is wrong? What if we could choose our lifespan? In this groundbreaking book, Dr. David Sinclair, leading world authority on genetics and longevity, reveals a bold new theory for why we age. As he writes, Aging is a disease and that disease is treatable. This eye-opening and provocative work takes us to the frontlines of research that is pushing the boundaries on our perceived scientific limitations, revealing incredible breakthroughs, many from Dr. David Sinclair's own lab at Harvard that demonstrate how we can slow down or even reverse aging. The key is activating newly discovered vitality genes, the descendants of an ancient genetic survival circuit that is both the cause of aging and the key to reversing it. Recent experiments in genetic reprogramming suggest that in the near future, we may not just be able to feel younger, but actually become younger. Through a page-turning narrative, Dr. Sinclair invites you into the process of scientific discovery and reveals the emerging technologies and simple lifestyle changes such as intermittent fasting, cold exposure, exercising with the right intensity, and eating less meat that have been shown to help us live younger and healthier for longer. At once a roadmap for taking charge of our own health destiny and a bold new vision for the future of humankind, Lifespan will forever change the way we think about why we age and what we can do about it.
