**Total Leaders 2.0** Charles J. Schwahn, William G. Spady, 2010-04-16 Total Leaders 2.0 is the twenty first century's quick guide to leadership and successful change. It places the best thinking of several dozen cutting edge leadership and change gurus of the past two decades into an integrated, compelling, easily understood and practical leadership framework: the Total Leader 2.0 Model. The model's five domains and fifteen performance roles enable leaders in any field of endeavor to systematically address the challenges of organizational change in today's technologically driven, dramatically changing world. What the book's first two chapters vividly describe as the Age of Empowerment. This new edition of the widely read Total Leaders book 1 significantly deepens the theoretical grounding and applicability of the original Total Leader Model and 2 expands its connection to other significant dimensions of leadership: professionalism, personal empowerment, learning, life and change. This book provides education leaders with a powerful outside the box perspective on today's pressing educational issues and a systematic process called strategic design for moving their organizations from an Industrial Age grounding to an Age of Empowerment way of educating for the twenty first century.
