

Reading a Horse's Ears

A horse's ears and actions are the key to their emotions. They can tell you what they are paying attention to and how they feel by the way they use their ears and the way they act. Here are some things to look out for...

Ears forward but relaxed
Interested in what's in front of them.

Ears turned back but relaxed
Listening to their rider or what's behind them.

Ears pointed stiffly forward
Alarmed or nervous about what's ahead, looking out for danger.

Ears pointed left and right
Relaxed, paying attention to scenery on both sides.

Ears stiffly back
Annoyed or worried about what's behind them, might kick if annoyed.

Droopy ears
Calm and resting, horse may be dozing.

Ears flattened against neck
Showing the fear response, signs of aggression, may fight, bite or kick.

Sad face
'Shutting down', disinterested in their surroundings.
