So Wheres The Punch Line:

Anti-Matter Michael Mathiesen, 2018-09-05 Yes there is Anti Matter too much in fact and there s a little bit of it everywhere Anti Matter the opposite type of matter that we know and use every day Whenever Anti Matter comes into contact with the normal matter that is part of us all it annihilates all probability of the continued path we re on and sends us down an alternative path I also believe that right now we here on the Earth are traveling through a hugely unusual cloud of this stuff How do I know that Because everything going on in our evolution is an opposite reality We should be enjoying the greatest brotherhood of mankind ever with Love and Peace and prosperity being proclaimed everywhere Instead we re killing each other in record numbers Hate fills the media Governments have all failed us Discord and chaos rule us And it is my theory that we went off into this anti matter induced alternate universe when John Kennedy was assassinated and Lyndon Johnson became the President who decided to go and slaughter millions of innocent people in Viet Nam and then Richard Tricky Dick Nixon became President and he expanded the war into Cambodia and neither of these men went to jail This was the start of the Bizarro Universe for me I noticed the moment we went down this evil path because the Beatles were pulling us all in the right direction but the Gravity of these evil minds led us down the wrong path There s book about this theory great Science Fiction that everyone must read Get your copy today **But Where Is the Lamb?** James

Goodman, 2013-09-10 I didn t think he d do it I really didn t think he would I thought he d say whoa hold on wait a minute We made a deal remember the land the blessing the nation the descendants as numerous as the sands on the shore and the stars in the sky So begins James Goodman s original and urgent encounter with one of the most compelling and resonant stories ever told God s command to Abraham to sacrifice his son Isaac A mere nineteen lines in the book of Genesis it rests at the heart of the history literature theology and sacred rituals of Judaism Christianity and Islam For more than two millennia people throughout the world have grappled with the troubling questions about sacrifice authority obedience and faith to which the story gives rise Writing from the vantage of a reader a son a Jew a father a skeptic a historian a lover of stories and a writer Goodman gives us an enthralling narrative history that moves from its biblical origins to its place in the cultures and faiths of our time He introduces us to the commentary of Second Temple sages rabbis and priests of the late antiquity and early Islamic exegetes some of whom imagined that Ishmael was the nearly sacrificed son He examines Syriac hymns in which Sarah stars Hebrew chronicles of the First Crusade in which Isaac often dies and medieval English mystery plays He looks at the art of Europe s golden age the philosophy of Kant and Kierkegaard and the panoply of twentieth century interpretation sacred and profane including the work of Bob Dylan Elie Wiesel and A B Yehoshua In illuminating how so many others have understood this story Goodman tells a gripping and provocative story of his own *So Where's the Punch Line?*

Richard D. Timmins, 2005-07-01 I remember as a boy of twelve or so reading a book called Two Minute Mysteries It was a collection of very short mystery stories Each story provided the clues for solving the mystery I enjoyed running through those

pages at light speed seeing whether my solution matched the author's or if I didn't have a solution within five minutes or so anxiously reading through the author's solution There's just something about mysteries about puzzles that kept me hooked Years later that book long gone I have encountered one comparable little book that brought back some of the joys I'd experienced with Two Minute Mysteries Richard Timmins So Where's the Punch Line is a refreshing treatment of humor The book compiles numerous anecdotes and jokes but is unlike any other I've read in this genre you have to figure out the punch line to each the punch lines are provided at the end of the book of course Some were easy some were difficult and some truly stumped me I found myself slapping my forehead more than once But in each case I was entertained This book brought on a sense of nostalgia not only because of its resemblance to Two Minute Mysteries but also because it touched on issues and eras that I'd not remembered or thought about much Insightful in the telling you'll enjoy matching wits with the author The book is so enjoyable and addicting that once you start you'll have a hard time putting it down and will probably want to go through it in one sitting Be prepared for a page turning detective of a good time Well written and presented with situations and characters to whom one can easily relate the book reveals what it means to be human Best of all I got exactly what I was expecting the joy of solving puzzles and of course some really good guffaws Lift your glasses high for this on **The Flinch Factor** Michael A.
