scope of action at each level of leadership is framed or staged by the other levels as well as how actors at different levels utilise their scope The book starts out by exploring the pedagogical aspects of HE leadership as a multi level and multi actor phenomenon at a theoretical level It continues to discuss nation state HE in a global perspective and HE leadership in an organisational perspective Next the book looks at departmental leadership management and development Parallel with this the volume critically explores the non affirmative position itself by a contrasting dialogue with other theoretical approaches
