Steelworker Alley How Class Works In Youngstown:

Steelworker Alley Robert Bruno, 1999 The son of a Youngstown steelworker Bruno returned to his hometown seeking to understand the formation of his own working class consciousness and the place of labor in the larger capitalist society Drawing on interviews with dozens of former steelworkers and on research in local archives Bruno explores the culture of the community including such subjects as relations among coworkers class antagonism and attitudes toward authority He describes how because workers are often neighbors the workplace takes on a feeling of neighborhood He also demonstrates that to understand class consciousness one must look beyond the workplace in this instance from Youngstown's front porches to its bowling alleys and voting booths

Closing Chapters Thomas G. Welsh, 2011-12-16 Closing Chapters attempts to explain the disintegration of urban parochial schools in Youngstown Ohio a onetime industrial center that lost all but one of its eighteen Catholic parochial elementary schools between 1960 and 2006 Through this examination of Youngstown Welsh sheds light on a significant national phenomenon the fragmentation of American Catholic identity
