Stephens Passion:

Democratic passions Matthew Roberts,2022-06-14 This book challenges the assumption just as alive today as it was in the nineteenth century that the political sphere was an arena of reason in which feelings had no part to play It shows that feelings were a central albeit contested aspect of the political culture of the period Radical leaders were accused of inflaming the passions the state and its propertied supporters were charged with callousness radicals grounded their claims to citizenship in the universalist assumption that workers had the same capacity for feeling as their social betters denied at this time It sheds new light on the relationship between protest movements and the state by showing how one of the central issues at stake in the conflict between radicals and their oppressors was the feelings of the propertied classes **Yachting**,2007-03 **The Mother of All Departments** Michael Bassett,2013-11-01 Brings to life the history of the most important agency of government in New Zealand for much of the last century It traces the evolution of the Department of Internal Affairs from its genesis as the Colonial Secretary's Office in 1840 providing an overview of the development and expansion of government in New Zealand *Soupy Twists!* Jem Roberts,2018-09-06 This first ever officially authorised biography of Fry Laurie takes us on their journey from insecure Footlighters to international comedy heroes It is the tale of a true friendship a deep affection between two very funny men which has long been reflected back from an adoring public Jem Roberts acclaimed chronicler of *Blackadder* and *The Hitchhiker's Guide to the Galaxy* covers everything from the excitement of being the first Perrier Award winners with *The Cellar Tapes* to the terrors of performing on Saturday Live the collaborative warfare of *Blackadder* and the ultimate depiction of Wodehouse's most inimitable characters Jeeves Wooster Beyond this the trials and tribulations of their remarkable subsequent separate career paths from *QI* to *House* will be explored for the first time With tantalising never before seen titbits from the *A Bit of Fry Laurie* archive and interviews with Emma Thompson Richard Curtis John Lloyd and more this history of Fry Laurie is an overdue celebration paying tribute to a legacy of laughter from one of the funniest double acts of all time **Lacan and Contemporary Film** Todd McGowan,2020-09-08 This unique volume collects a series of essays that link new developments in Lacanian psychoanalytic theory and recent trends in contemporary cinema Though Lacanian theory has long had a privileged place in the analysis of film film theory has tended to ignore some of Lacan's most important ideas As a result Lacanian film theory has never properly integrated the disruptive and troubling aspects of the filmic experience that result from the encounter with the Real that this experience makes possible Many contemporary theorists emphasize the importance of the encounter with the Real in Lacan's thought but rarely in discussions of film By bringing the encounter with the Real into the dialogue of film theory the contributors to this volume present a new version of Lacan to the world of film studies These essays bring this rediscovered Lacan to bear on contemporary cinema through analysis of a wide variety of films including *Memento* *Eyes Wide Shut* *Breaking the Waves* and *Fight Club* The films discussed here demand a turn to Lacanian theory because they emphasize the disruptive role of the Real

and of jouissance in the experience of the human subject There is a growing number of films in contemporary cinema that speak to film s power to challenge and disturb the complacency of spectators and the essays in Lacan and Contemporary Film analyze some of these films and bring their power to light Because of its dual focus on developments in Lacanian theory and in contemporary film this collection serves as both an accessible introduction to current Lacanian film theory and an introduction to the study of contemporary cinema Each essay provides an accessible jargon free analysis of one or more important films and at the same time each explains and utilizes key concepts of Lacanian theory The collection stages an encounter between Lacanian theory and contemporary cinema and the result is the enrichment of both

Languages and Cultures of Eastern Christianity: Greek Scott Fitzgerald Johnson,2017-05-15 This volume brings together a set of fundamental contributions many translated into English for this publication along with an important introduction Together these explore the role of Greek among Christian communities in the late antique and Byzantine East late Roman Oriens specifically in the areas outside of the immediate sway of Constantinople and imperial Asia Minor The local identities based around indigenous eastern Christian languages Syriac Coptic Armenian Georgian etc and post Chalcedonian doctrinal confessions Miaphysite Church of the East Melkite Maronite were solidifying precisely as the Byzantine polity in the East was extinguished by the Arab conquests of the seventh century In this multilayered cultural environment Greek was a common social touchstone for all of these Christian communities not only because of the shared Greek heritage of the early Church but also because of the continued value of Greek theological hagiographical and liturgical writings However these interactions were dynamic and living so that the Greek of the medieval Near East was itself transformed by such engagement with eastern Christian literature appropriating new ideas and new texts into the Byzantine repertoire in the process
