Pillars of Early Literacy

The National Reading Panel identified five key concepts at the core of every effective reading instruction program: **Phonemic Awareness**, **Phonics**, **Fluency**, **Vocabulary**, and **Comprehension**. Since the panel's report was released in 2000, these concepts have become known as the "five pillars" of early literacy and reading instruction.

Teaching Literacy:

Teaching Literacy Effectively in the Primary School Richard Fox, Jane Medwell, Louise Poulson, David Wray, 2003-09-02
This book discusses the implications arising from the authors' research into what constitutes an effective teacher of literacy. They have been able to identify what effective teachers know, understand, and do which enable them to put effective teaching of literacy into practice in the primary phase. By identifying the strategies used by these teachers, the authors show how these can be applied by other primary teachers to improve their teaching of literacy. *Teaching Literacy for Love and Wisdom* Jeffrey D. Wilhelm, Bruce Novak, 2011-07-28 This book lays out a new vision for the teaching of English, building on themes central to Wilhelm's influential *You Gotta Be The Book*. Teaching Literacy across Content Areas Lasisi Ajayi, Tamara Collins-Parks, 2016-04-26 This book is written primarily for pre-service and in-service teachers of Literacy, English Language Arts, school administrators, literacy graduate education students, and literacy education researchers, and addresses the myriad of questions regarding the implementation of the Common Core State Standards. Classroom teachers and pre-service teachers are currently confronting questions such as how they can teach the Common Core State Standards to make sure they are fully addressing them, how they can have the time to teach students to have deeper understandings of the skills and concepts addressed in the Standards, what they can do to meet the learning needs of diverse students such as English language learners and students with learning disabilities, whether teachers of content areas are required to add reading instruction to their teaching responsibilities, whether the Standards tell teachers what to teach, and whether the document tells teachers how to implement the Standards in the classroom, among others. This book is designed to answer these questions and many others. Each chapter contains instructional practices, examples, vignettes, and illustrations that connect the Common Core State Standards to classroom practices and thereby provide pre-service and in-service teachers with meaningful, relevant, and practical teaching strategies to prepare culturally, academically, and linguistically diverse students in California and other states of the nation for both career and college. In this regard, readers of this book will find that the authors have provided a pathway to better understand the Common Core State Standards and will be able to use what they learn in the pages of this book to provide more effective instruction for their students across the disciplines to read, analyze, and critique complex texts and apply knowledge to solve practical, real-life problems. **Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts** James Flood, Shirley Brice Heath, Diane Lapp, 2011 The *Handbook of Research on Teaching Literacy Through the Communicative and Visual Arts* is a comprehensive overview of research on this topic, extending conceptualizations of literacy to include all of the communicative arts: reading, writing, speaking, listening, viewing, and the visual arts of drama, dance, film, art, video, and computer technology.
