The Training of Teachers of the Modern Foreign Languages Canadian Committee on Modern Languages, Charles Maltador Purin, Modern Foreign Language Study, 1929

Teacher Involvement in High-Stakes Language Testing Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy Moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students

High-Stakes Testing David Coniam, Peter Falvey, 2018-10-24 This book provides a detailed account of the origin development administration revision and subsequent research findings on the benchmarking initiative from 1996 2016 It presents an overall assessment of the initiative's impact on major stakeholders predictions regarding the way forward and implications for other countries especially in South East Asia In addition the book discusses what the larger global community can learn from Hong Kong's two decade experience of conceptualizing and implementing minimum standard language requirements for teachers

*Resources in Education*, 1994 □□□□□□□□□□, 1991 *Achievement Tests in the Modern Foreign Languages* Vivian Allen Charles Henmon, 1929 The present work reports on one phase of an inquiry carried on from 1924 to 1927 by the Modern Foreign Language Study and the Canadian Committee on Modern Languages Working with subventions granted by the Carnegie Corporation of New York and under the sponsorship of the American Council on Education the two Committees sought to explore as fully as circumstances permitted the situation of modern language teaching in the United States and Canada in respect to enrollment standards of achievement the objectives organization materials and methods of instruction and the training of teachers The ultimate object of the investigation was to ascertain the conditions now prevailing in order to be able to draw conclusions for the future and to make suggestions for improvement in instruction As it was necessary to bring the inquiry to an end within a period of three years the Committees were obliged to limit their activities in the main to the secondary schools and the corresponding levels of college instruction
