Introduction: - Libraries are continually developing to address the issues of their differing networks. A long way from being a basic store of books and media, the present libraries fill in as priceless assets for everything from information examination(RDM) to 3-D printing and starting exercises in coding.

Acquisition of periodicals in academic libraries in an ever growing price context

Periodicals also referred to as serials, journals or magazines are important sources of information and vital to the academic world because they contain more recent information than books and often the latest information on any given subject.

For the purpose of publishing scientific work, Periodical is an essential part of the academic library collections. Universities and institutions normally subscribe a large number of periodicals for their libraries.

For the last two decades, the periodical publishing Industries has changed significantly. Due to increase in prices of periodicals, libraries struggle to keep their budget in control. Combination of these facts means it harder than ever for academic libraries to continue all ongoing periodical subscription.

The acquisition services face the challenges of to how to maintain the quality of their periodicals collection and acquisition of services in this context. Some Universities or Institution made digital subscriptions that tend to be cheaper and some other libraries have developed collaborative modes of acquisition by merging their catalogues allowing the periodical available but at the same time paying for a single copy of it by sharing the amount among the libraries that decide to work together. To acquire and maintain quality periodicals in the library some factors will contribute significantly. The factor need to consider for this issue is as follows:

Research Data Management/ Data Analytics: -

Information examination (DA) is the way toward inspecting informational indexes so as to make determinations about the data they contain, progressively with the guide of specific frameworks and programming.
