Creating Art for All Ages Frances Flicker, Jacqueline G. Van Schooneveld, Jeanne Richins, 2020-10-23 This is the third book in the series *Creating Art for All Ages*. The series takes students on an interdisciplinary cross content journey. Each book provides experiences in language arts, social studies, math, and art as the students investigate ancient and modern civilizations. *Industry and Imagination in Ancient and Modern Civilizations* is the third book of the series and examines the generations of the Industrial Revolution society during WWI and WWII. Modern and Contemporary times During the era of the Industrial Revolution the role of the artist transformed as the patronage changed and advancements in photography were able to portray likenesses. The artist sought new avenues by using art as an expressive tool. As time progressed artistic expression navigated the art into innovative, imaginative, and unique styles. Art became whatever the artist intended it to be.

Art in Action Guy Hubbard, 1987 Sequential lessons explore the four art disciplines: aesthetic perception, creative expression, art heritage, and aesthetic valuing. Incorporates creation of art works by students in a variety of media and techniques. No art background for the teacher is assumed or required. *Emphasis Art* Frank Wachowiak, Robert D. Clements, 2001 Written for teachers of elementary and middle school art. *Emphasis Art* examines the daily adventures, challenges, and rewards of teaching art to children. Offering effective teaching strategies based on universal art principles, it is a book for those teachers who seek continuing challenges, new techniques, and classroom tested art projects. Clear technical directions for art studio experiences promote hands-on learning.
