Second Sight Explained Washington Irving Bishop, 2017-09-17 Excerpt from Second Sight Explained A Complete Exposition of Clairvoyance or Second Sight as Exhibited by the Late Robert Houdin and Robert Heller Showing How the Supposed Phenomena May Be Produced Words can be rapidly repeated without the slightest effort of memory These strings of words are what we may call natural associations They would be useful in recollecting a discourse

which it was desired to keep in mind under circumstances where note taking was inadmissible They are natural evolutions in the process of thought which is evoked by a well reasoned discourse But we want in the case of the Clairvoyant to associate things that differ that are not natural and therefore are not evoked one from the other We therefore must find an association connecting two unconnected ideas and if we have a brooch on one person to be associated with a yellow ower on another we Should have some other process of connecting the two things than simply repeating one after the other in the manner of parrot talking or schoolboy repetition But this can easily be arranged Professors of mnemonics associate by the inter position of one word as a connecting link two ideas which they desire to connect as for instance Death and Abyssinia might be associated with War between them each of which would be recalled instantly by the repetition of the one word About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
