volumes a year In considering the matter of a second edition the first impulse was by careful re editing to bring the volumes up to date both in the matter of eliminating the undesirable material and in correcting other matter concerning which there is now more complete information In 1855 when volume i was issued the study of Western history was in its infancy The editor Dr Lyman Copeland Draper was then new to the West and there were few others who had made scholarly researches into its historical sources About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
