Witness Intimidation:

Witness Intimidation Michael H. Graham, 1985-05-24 Michael H. Graham argues that to meet the problem of witness intimidation squarely the system must eliminate the possibility of intimidation by preserving the victim's or eyewitness's testimony in a form admissible at trial. To do this the legal profession must develop procedures to preserve prior out-of-court statements and to admit such statements as substantive evidence if the witness is deemed sufficiently trustworthy. Finally, Graham advances a new proceeding, the preservation proceeding, that would permit the prosecutor to bring a witness before a judge, magistrate, or specially appointed attorney for the express purpose of recording and preserving the witness's testimony.

Witness Protection and Criminal Justice in Africa Suzzie Oyakhire, 2023-06-30 This book examines the concept of witness protection which is still at an early developmental stage in several African countries including Nigeria from a legal and institutional perspective. Recent developments in Nigeria highlight the need to clarify legal and conceptual issues within the existing legal framework for protecting witnesses. Using the Nigerian case study, the book illustrates some obscurities inherent in the concept of witness protection. These are highlighted around five critical areas: the definition of witness protection, the scope of beneficiaries requiring protection, the nature of crimes necessitating protection, the nature of protective measures, and the administrative control of witness protection. Specifically, this book draws from the existing literature and practices of witness protection and adopts two distinct perspectives: the criminal justice perspectives and human rights perspectives as heuristic tools for analysing the concept and to separate the disparate influences that shape how it is construed. These distinctions are utilised throughout the book as an integrated way of conceptualising the concept of witness protection. By discussing the practice of witness protection within the Nigerian context, the book contributes to African conversations on the topic of witness protection. The clarifications made in this book are utilised in making normative proposals for developing a legal framework for witness protection in Nigeria. They are also useful for other African countries interested in developing a witness protection framework as part of criminal justice reform. This book will serve as a reference point for legal scholars, researchers, academics, postgraduate students, and policy makers interested in the concept of witness protection. It would also be useful for courses concerned with comparative criminology where there is an interest in developments in the Global South.

Confronting Failures of Justice Paul H. Robinson, Jeffrey Seaman, Muhammad Sarahne, 2024-08-06 Most murderers and rapists escape justice, a horrifying fact that has gone largely unexamined until now. This groundbreaking book tours nearly the entire criminal justice system, examining the rules and practices that regularly produce failures of justice in serious criminal cases. Each chapter outlines the nature and extent of justice failures in present practice, describing the interests at stake and providing real-world examples. Finally, each chapter reviews proposed and

implemented reforms that could balance the competing interests in a less justice frustrating manner and recommends one sometimes completely original reform to improve the system A systematic study of justice failures is long overdue As this book discusses regular failures of justice in serious criminal cases undermine deterrence and the criminal justice system s credibility with the community as a moral authority The damage caused by unpunished crime is immense and even worse falls primarily on vulnerable minority communities Now for the first time students researchers policymakers and citizens have a resource that explains why justice failures occur and what can be done about them *Confronting Failures of Justice* is accessible for use by college freshman through graduate students and law students and is designed to be main text for a course on justice failures but it could be used in conjunction with other texts in a broad range of courses touching on criminal justice It presents arguments in a highly organized fashion and provides dozens of case studies many with photographs to gain student interest and to bring the academic discussions to life *National Institute of Justice Research in Action* ,1987
