

**YOU CAN'T WIN.
SO WIN.**

“You don’t wait for attention, you take it. You put in the work, you stay ready and when the moment comes, you own it. Winning isn’t just about medals: It’s about overcoming, about proving to yourself that you’re capable of more than you ever imagined. And doing it all authentically.”

So What:

So What? Kevin Duncan, 2008-02-28 *So What* gets straight to the point so you can cut through the noise and nonsense of work. Much of what we learn in our formative years is unlearned in later life. As grown-ups we are often unable to answer the simplest of questions in a clear, direct way and frequently have no idea why we are doing something. This can lead to crippling inefficiency in business and goes some way to explaining why so many people spend so much time doing things that have no bearing on the true purpose. By behaving in a genuinely inquisitive way you can get right to the heart of the matter and save yourself hours, days and even months of anguish. The questions *So what? Why? How? and When?* can be hugely effective when applied in the right context and this book shows you how to use them. Once all the right questions have been posed there is a final, sure-fire method for testing whether something is relevant and helpful. By completing the sentence *Something must be wrong if it is simple to work out if you are wasting your time.* For example, *Something must be wrong if I don't want to go to work in the morning.* *So What?* shows you how to become truly inquisitive again. So let the questions roll. Pay attention to what the answers are. Learn from them and you will immediately improve your prospects of finally getting somewhere in life.

So What? who Cares? why You? Wendy Kennedy, 2006. Provides a toolkit for inventors and technology entrepreneurs to help in assessing the value and validity of a technology idea and to seek funding and support for that idea. Demonstrates how the *So what? Who cares? Why you?* framework can be used for attracting investors, customers and other business backers.

So What? John Szwed, 2004-01-09. Based on interviews with family and friends, this account of the jazz great's life reveals the influence of Miles Davis' life on his work as well as the musician's persistent desire to reinvent himself.

So what Do They Really Know? Cris Tovani, 2011. Cris describes the systems and structure she uses in her own classroom and shows teachers how to use assessments to monitor student growth and provide targeted feedback that enables students to master content goals. She also shares ways to bring students into the assessment cycle so they can monitor their own learning, maximizing motivation and engagement from publisher description.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes.
