Soccer Satisfied John Gwynne,2020-10-04 As supporter player and broadcaster John Gwynne has enjoyed a lifelong passion for football In Soccer Satisfied we follow a footballing journey which originated in the Shropshire countryside of the 1950s Shrewsbury Town was the local league team but a move to Manchester triggered over sixty years of undying love for Manchester City This sky blue thread weaves through the book interspersed with memories of John s own playing career at grass roots level anecdotes from his broadcasting career on local radio and for Sky s Soccer Saturday and memorable evenings on the dinner circuit John has met and befriended many great characters including Bert Trautmann Denis Law Jimmy Armfield and Gordon Banks Meetings with Sir Matt Busby Bobby Moore and Sir Alex Ferguson have left a lasting impression Pain and passion are felt as he writes movingly of the Munich tragedy and the death of his beloved and ever supportive wife Margaret On a lighter note there are a host of humorous anecdotes and one of broadcasting s most distinctive voices can be heard on every page Soccer Satisfied is a warm nostalgic journey connecting two quite different eras The game has changed markedly but John s enthusiasm for it has not dimmed

Correia, Frutuoso G. M Silva, Fernando Manuel Lourenço Martins, 2017-10-20 This book provides an account of the use of computational tactical metrics in improving sports analysis in particular the use of Global Positioning System GPS data in soccer As well as offering a practical perspective on collective behavioural analysis it introduces the computational metrics available in the literature that allow readers to identify collective behaviour and patterns of play in team sports These metrics only require the bio dimensional geo referencing information from GPS or video tracking systems to provide qualitative and quantitative information about the tactical behaviour of players and the inter relationships between teammates and their opponents Exercises experimental cases and algorithms enable readers to fully comprehend how to compute these metrics as well as introducing them to the ultimate performance analysis tool which is the basis to run them on The script to compute the metrics is presented in Python The book is a valuable resource for professional analysts as well students and researchers in the field of sports analysis wanting to optimise the use of GPS trackers in soccer
