Stilled Life:

New York Gregory Peterson, 2022-02 Mid March 2020 native New Yorker Gregory Peterson is on an early evening walk through the city suddenly shut down by the coronavirus pandemic Manhattan's grand public spaces are bare The monumental Lincoln Center Plaza is empty The sounds of skates on ice and bustle of tourists and workers at Rockefeller Center are absent Not a soul on Easter Sunday at the Cathedral of Saint John the Divine Starkly silent the city is stilled as no one had ever seen it before Traveling on foot and by bike to avoid public transportation Peterson took more than 400 photographs of over 200 locations in Manhattan Brooklyn and Queens through the spring and summer of 2020 Using his iPhone 11 he captured myriad surreal landmarks the United Nations Secretariat with no traffic people or flags Grand Central Terminal without a person or even a car in sight as well as gelled neighborhood streets churches shops and other tourist destinations Without people these photos reveal the city's primeval soul They unveil a serene beauty most often obscured by the frenzy of our fast paced lives We see New York with new eyes The first reaction to Gregory Peterson's poised chilled shots of New York City is Must be trick photography He's Photoshopped the people out or else a sunny daylight in in what must have been shots from the dead of night But no This is the capital of the world in lockdown One has to go to de Chirico's imaginary metaphysical paintings of Italian cities to find such radical depopulation David Cohen editor Artcritical.com During the height of the lockdown Peterson also captures the city's response to swelling Black Lives Matter protests that shook the world after the killing of George Floyd For the first time in living memory midtown Manhattan and other areas were boarded up following Memorial Day due to fears of civil unrest as documented in the chapter Plywood New York New York Stilled Life is a comprehensive record of a unique vanished moment a memento of a time we all endured and how it changed us and our cities perhaps forever

Modernism and Still Life Claudia Tobin, 2020-03-02 This book takes an original approach to still life in modern literature and the visual arts by examining the potential for movement and transformation in the idea of stillness and the ordinary

Salome and the Dance of Writing Françoise Meltzer, 2010-08-15 How does literature imagine its own powers of representation Françoise Meltzer attempts to answer this question by looking at how the portrait the painted portrait framed appears in various literary texts Alien to the verbal system of the text yet mimetic of the gesture of writing the textual portrait becomes a telling measure of literature's views on itself on the politics of representation and on the power of writing Meltzer's readings of textual portraits in the Gospel writers and Huysmans Virgil and Stendhal the Old Testament and Apuleius Hawthorne and Poe Kafka and Rousseau Walter Scott and Mme de Lafayette reveal an interplay of control and subversion writing attempts to veil the visual and to erase the sensual in favor of meaning while portraiture with its claims to bringing the natural object to life resists and eludes such control Meltzer shows how this tension is indicative of a politics of repression and subversion intrinsic to the very act of representation Throughout she raises and illuminates fascinating issues about the relation of flattery to caricature the nature of the uncanny the relation of representation to

memory and history the narcissistic character of representation and the interdependency of representation and power Writing thinking speaking dreaming acting the extent to which these are all controlled by representation must Meltzer concludes become consciously unconscious In the textual portrait she locates the moment when this essential process is both revealed and repressed **Christian Nation** ,1904 **The Elocutionist's Annual ...** ,1883 *Second World and Green World* Harry Berger (Jr.),1988 Harry Berger is a brilliant tenacious indefatigable close reader of Renaissance texts In fact his remarkably restless and capacious intelligence illuminates virtually the whole range of Renaissance cultural artifacts and then turns upon itself to illuminate its own theoretical assumptions and critical procedures The essays in this book are essential reading for students of Renaissance culture Stephen Greenblatt University of California Berkeley This collection of Harry Berger s essays is a major and long awaited event for students of Renaissance literature and art Readers in other fields will also be interested in following an exceptionally innovative mind as it moves across many disciplinary boundaries Margaret W Ferguson University of Colorado Boulder *Wordsworth, Commodification, and Social Concern* David Simpson,2009-02-19 David Simpson s reading of Wordsworth examines Wordsworth s reaction to changes in the modern world at the turn of the century [Biogenetic Paradoxes of the Nation](#) Sakari Tamminen,2019-11-22 In 1992 the Convention on Biological Diversity CBD signed by over 160 countries and hailed as the key symbol of a common vision for saving Earth s biodiversity set forth three primary mandates preserving biodiversity using biodiversity components sustainably and enabling economic benefit sharing The CBD which gave signatory countries the ability to claim sovereignty over nonhuman genetic resources native to each nation defined biodiversity through a politics of nationhood in ways that commodified genetic resources In *Biogenetic Paradoxes of the Nation* Sakari Tamminen traces the ways in which the CBD s seemingly compatible yet ultimately paradox ridden aims became manifest in efforts to create conserve and capitalize on distinct animal and plant species In using Finland as a case study with which to understand the worldwide efforts to convert species into manifestations of national identity Tamminen shows how the CBD s policies contribute less to biodiversity conservation than to smoothing the way for frictionless operation of biotechnologically assisted circuits of the global bioeconomy Tamminen demonstrates how an intimate look at the high level politics and technical processes of defining national genetic resources powerfully illuminates the limits of anthropocentric biopolitical theory [The Borderland](#) Robert Halifax,1912 **Godey's Lady's Book** ,1876 [Abstract Poetry](#) Sarah Wilson,2002-10 Sarah Wilson s Poetry Who Whose memories are home made preserves sweet and tart with a taste of sublime wisdom The surprise of one unlikely word touching another In shades of golden rust and blues Sarah s poetry owl crys at night tearing silence asunder shocking and beguiling us with taboos Her small town people really take the cake Pictures and words are infused in our mind with her torch as we wend our way down to her dock on the lake Her captain is not by the boat but sitting quietly on the porch Sarah offers us tea in a most genteel way and then sails us on a wind so swift we are balloons in a Nor easter catching a branch to linger and watch the stranger
