The Teaching of History Ernest Hartwell, 2012-10-23 This historic volume was originally offered one full century ago as a guide to history teachers of the high school and the upper grammar grades It is directly concerned with the teaching methods to be employed in the history period The author assumes the limiting conditions that surround classroom instruction of the present day he also takes for granted the teacher's sympathy with modern aims in history instruction All discussions of purpose and content are therefore subordinated to a clear presentation of the details of effective teaching technique The reader into whose hands this volume falls will be deeply interested in the ideals of teaching implied in the concrete suggestions given in the following pages for after all the value of any system of special methods rests not merely on its apparent and immediate psychological effectiveness but also on the social purposes which it is devised to serve It must be recognized at the outset that history has a social purpose However much university teaching may be interested in truth for its own sake an interest necessarily basic to the service of all other ends the teaching of the lower public schools must take into account the relevancy of historical fact to

current and future problems which concern men and women engaged in the common social life **Teaching History Creatively** Hilary Cooper,2016-11-09 Where teaching was less effective it was found that learning was passive without challenge or clear goals and so with limited progression There is also a generally perceived need for more creative approaches to a broader primary curriculum as reports warn of the winnowing out of fun in teaching pedagogies This book tackles both issues head on introducing teachers to the wealth of available approaches to historical enquiry which will ensure creative effective learning *U.S. History Through Children's Literature* Wanda Miller,1997-03-15 Allow students to step back in time to experience the thoughts feelings dilemmas and actions of people from history For each history topic Miller suggests two titles one for use with the entire class and one for use with small reading groups Summaries of the books author information activities and topics for discussion are supplemented with vocabulary lists and ideas for research topics and further reading This integrated approach makes history meaningful to students and helps them retain historical details and facts Primary Source Reader for World History: Since 1500 Elsa A. Nystrom,2006 Sharing a thoughtful collection of important primary source documents essential to world history PRIMARY SOURCE READER FOR WORLD HISTORY is an affordable supplement for students and a valuable complement to any world history or world civilization class More than 50 percent of the primary source documents that comprise this new two volume reader are non Western so as to give students a broad perspective on the history of the world The primary source readings are divided by eras and organized according to principal themes such as religion law and government and everyday life Each group of readings has a section describing the significance of subsequent readings and how those readings interrelate Individual readings include a head note and various study questions intended to guide student reading and understanding Brief and inexpensive this reader is available to package with any of our world history texts VOLUME I and VOLUME II can be packaged both together and separately Teachers Monographs ,1916 Colorado History Detectives Todd Laugen,Meg Frisbee,2019-03-07 **The National Normal** ,1872 **Geography reading books, adapted to the new education code of 1882 adapted to the new code** Geography reading books,1885 **Readers' Guide to Periodical Literature** ,1922 Teaching History, Learning Citizenship Jeffery D. Nokes,2019 Learn how to design history lessons that foster students knowledge skills and dispositions for civic engagement Each section of this practical resource introduces a key element of civic engagement such as defending the rights of others advocating for change taking action when problems are observed compromising to promote reform and working with others to achieve common goals Primary and secondary sources are provided for lessons on diverse topics such as the Alice Paul and the Silent Sentinels Samuel Gompers and the American Federation of Labor Harriet Tubman Reagan and Gorbachev s unlikely friendship and Lincoln s plan for Reconstructing the Union With Teaching History Learning Citizenship teachers can show students how to apply historical thinking skills to real world problems and to act on civic dispositions to make positive changes in their communities Teachers will appreciate the adaptability of the unscripted

lessons in this book Each lesson provides background historical context for the teacher and the resources to expose students to themes of civic engagement that cut across historical time periods and current events With the case studies ideas and sources in this book teachers can instill students with the dispositions of democratic citizens From the Foreword by Laura Wakefield interim executive director National Council for History Education *The Indiana School Journal* ,1892 **The Teaching Of History** Ernest C Hartwell,2023-04 The Teaching of History by Ernest C Hartwell published in the early 20th century is a thorough manual for history teaching in American schools Hartwell highlights the value of teaching history as a topic that is current and interesting to students in this book He believes that history should be taught as a dynamic narrative that sheds light on the evolution of human civilization and culture rather than as a list of facts and dates In addition Hartwell discusses the difficulties of teaching history in today s multicultural and diverse society emphasizing the value of presenting the opinions and experiences of underrepresented groups He recommends that educators pay attention to the wants and needs of their pupils and work to provide a welcoming and encouraging learning environment The focus on the value and relevance of history as a topic is still relevant today and The Teaching of History offers a comprehensive and helpful manual for teaching history in American classrooms For both historians and educators the book is still an invaluable tool *A list of books in the reading room, 1900* Chicago John Crerar libr,1900 **Reading Research at Work** Katherine A. Dougherty Stahl,Michael C. McKenna,2006-04-20 This book presents state of the science research on the components of successful literacy learning and how to target them in contemporary classrooms The volume builds on and extends the work of Steven Stahl whose pioneering contributions encompassed the key areas of phonemic awareness phonics vocabulary fluency comprehension and assessment Ten classic papers by Stahl are accompanied by 16 new chapters by other leading experts who highlight Stahl s theoretical methodological and instructional innovations describe how knowledge about each domain continues to evolve and discuss implications for helping all children become better readers *New York Teachers' Monographs* ,1909 **Philippine Teacher** ,1928
