British Nautical Melodramas, 1820-1850 Arnold Schmidt,2022-07-30 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres These plays mixed sentimental moments and comic interludes of domestic melodrama with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver Goldsmith and Richard Brinsley Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little scholarly attention but their value as reflections of Britain s promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined An extensive bibliography of primary and secondary texts a complete index and contemporary images of the actors theatres stage sets playbills costumes and locales have been compiled to aid study further

Romantic Actors, Romantic Dramas James Armstrong,2022-11-09 This book reinterprets British dramas of the early

nineteenth century through the lens of the star actors for whom they were written Unlike most playwrights of previous generations the writers of British Romantic dramas generally did not work in the theatre themselves However they closely followed the careers of star performers Even when they did not directly know actors they had what media theorists have dubbed para social interactions with those stars interacting with them through the mediation of mass communication whether as audience members newspaper and memoir readers or consumers of prints porcelain miniatures and other manifestations of fan culture This study takes an in depth look at four pairs of performers and playwrights Sarah Siddons and Joanna Baillie Julia Glover and Samuel Taylor Coleridge Edmund Kean and Lord Byron and Eliza O Neill and Percy Bysshe Shelley These charismatic performers knowingly or not helped to guide the development of a character based theatre from the emotion dominated plays made popular by Baillie to the pinnacle of Romantic drama under Shelley They shepherded in a new style of writing that had verbal sophistication and engaged meaningfully with the moral issues of the day They helped to create not just new modes of acting but new ways of writing that could make use of their extraordinary talents
