Two Level Functional Languages:

Two-Level Functional Languages Flemming Nielson, Hanne Riis Nielson, 1992-07-16 This book provides a framework in which the type notation of functional languages is extended to include a distinguishing notation for run times and compile times

Implementation and Application of Functional Languages Andy Gill, Jurriaan Hage, 2012-11-06 This book constitutes the thoroughly refereed post conference proceedings of the 23rd International Symposium on Implementation and Application of Functional Languages IFL 2011 held in Lawrence Kansas USA in October 2011 The 11 revised full papers presented were carefully reviewed and selected from 33 submissions The papers by researchers and practitioners who are actively engaged in the implementation and the use of functional and function based programming languages describe practical and theoretical work as well as applications and tools They discuss new ideas and concepts as well as work in progress and results

Language Prototyping: An Algebraic Specification Approach Jan Heering, Paul Klint, Arie Van Deursen, 1996-09-30 Language prototyping provides a means to generate language implementations automatically from high level language definitions This volume presents an algebraic specification approach to language prototyping and is centered around the ASF SDF formalism and Meta Environment The volume is an integrated collection of articles covering a number of case studies and includes several chapters proposing new techniques for deriving advanced language implementations The accompanying software is freely available

Implementation of Functional Languages Chris Clack, Kevin Hammond, Tony Davie, 1998-08-26 This book constitutes the thoroughly refereed post workshop proceedings of the 9th International Workshop on Implementation of Functional Languages IFL 97 held in St Andrews Scotland UK in September 1997 The 21 revised full papers presented were selected from the 34 papers accepted for presentation at the workshop during a second round of thorough a posteriori reviewing The book is divided in sections on compilation types benchmarking and profiling parallelism interaction language design and garbage collection

ESOP '88 Harald Ganzinger, 1988-03-09 The volume contains the 23 papers selected for presentation at the ESOP 88 Conference Nancy 1988 The theme of the ESOP conferences is the design specification and implementation of programming languages and systems Particular emphasis is placed on work in which an implemented system embodies an important concept or formal model of programming in such a way that its usefulness is demonstrated Among the five sections of the volume the one on language implementation contains the most papers Here a rather wide spectrum of aspects ranging from language implementation problems on parallel architectures and optimization of functional programs to new concepts for programming environments is covered Another large section consists of papers in the area of algebraic specification and type concepts The papers in this section are devoted to issues such as polymorphism subtypes and notions of implementation and reuse for algebraic specifications Two further sections are devoted to new language concepts and novel approaches to program development and verification
