

# Project Management Framework

Initiation	Planning	Execution	Performance Control	Closure
<p>Project managers work with other concerned stakeholders to evaluate and determine the value and feasibility of the project.</p>	<p>Scope, schedule, budget, resources, and risks are discussed in this phase to develop a perfect project plan.</p>	<p>Project executives follow the developed plan in this stage to keep the development process smoother.</p>	<p>Project execution process gets evaluated in this phase by means of KPIs like project objectives, quality deliverables, cost monitoring, overall project performance, etc.</p>	<p>The promised project deliverables are handed over to the client for validation. A final closure meeting is also held to discuss the overall experience and to close all project accounts.</p>
