Check with the seller prior to purchase. *Technical Communication Today* was written for introduction to technical communication or technical writing courses taught most often in English Departments. *Technical Communication Today* remains the only text to fully centralize the computer in the technical workplace, presenting how writers use computers throughout their communication process. Writers use their computers to help them think, research, compose, design, and edit. Not only is *Technical Communication Today* firmly rooted in core rhetorical principles, but the text also presents computers as thinking tools that powerfully influence how we develop, produce, design, and deliver technical documents and presentations. *Technical Communication Today* speaks to today's students and how they expect to learn information. Instructional narrative is chunked so that readable portions of text are combined with graphics. This presentation facilitates learning and models the way today's technical documents should be designed. Additionally, the chunked presentation integrates an awareness of how documents are read, often raided by readers seeking the information they need. By mirroring these processes in its content and structure, *Technical Communication Today* offers readers a higher level of accessibility.

*Technical Communication Strategies for Today, Books a la Carte Edition*, Richard Johnson-Sheehan, 2014-03-04. *Technical Communication Strategies for Today* offers students all of the topics and genres they need for their technical communication course in fewer pages and at a significantly lower price. Students want their textbooks to cost less and they want comprehensive topical coverage presented in a succinct and clear writing style. *Technical Communication Strategies for Today* offers both and speaks to today's students. Instructional narrative is chunked so that portions of text are combined with graphics. The chunked presentation also integrates an awareness of how documents are read, often skimmed by readers.

[Citizenship and Advocacy in Technical Communication](#) Godwin Y. Agboka, Natalia Matveeva, 2018-06-22

In *Citizenship and Advocacy in Technical Communication*, teachers, researchers, and practitioners will find a variety of theoretical frameworks, empirical studies, and teaching approaches to advocacy and citizenship. Specifically, the collection is organized around three main themes or sections: considerations for understanding and defining advocacy and citizenship locally and globally; engaging with the local and global community and introducing advocacy in a classroom; and the collection covers an expansive breadth of issues and topics that speak to the complexities of undertaking advocacy work in TPC, including local grant writing activities, cosmopolitanism and global transnational rhetoric, digital citizenship and social media use, strategic and tactical communication, and diversity and social justice. The contributors themselves, representing fifteen academic institutions and occupying various academic ranks, offer nuanced definitions, frameworks, examples, and strategies for students, scholars, practitioners, and educators who want to or are already engaged in a variegated range of advocacy work. More so, they reinforce the inherent humanistic values of our field and discuss effective rhetorical and current

technological tools at our disposal Finally they show us how through pedagogical approaches and everyday mundane activities and practices we can advocate either actively or passively *Encyclopedia of Information Science and Technology, Second Edition* Khosrow-Pour, D.B.A., Mehdi, 2008-10-31 This set of books represents a detailed compendium of authoritative research based entries that define the contemporary state of knowledge on technology Provided by publisher
