Meter as Rhythm Christopher Hasty, 2020-04-01 Drawing on insights from the modern process philosophy of Bergson William James and A N Whitehead Christopher Hasty's *Meter as Rhythm* releases meter from its mechanistic connotations and recognizes it as a concrete visceral agent of musical expression Hasty reinterprets oppositions of law and freedom structure and process determinacy and indeterminacy to form a theory that engages diverse repertoires and aesthetic issues The revised 20th anniversary edition facilitates the work's current contexts of application from new subfields in ethnomusicology and music cognition to non music fields like literary studies physics and biology **Meter as Rhythm** Christopher Francis Hasty, 1997 Part II systematically develops a fully temporal theory of meter that engages a variety of interpretive possibilities open to the performer Here analyses of music from the early 17th century to the mid 20th century demonstrate the explanatory power of the theory and address broader issues of musical rhythm The concluding chapters open the theory to more general questions of musical experience and its theoretical representation **Words and Music** Deborah Fillerup Weagel, 2010 Introduction Musical contrast in Albert Camus L tranger Musical counterpoint in Albert Camus L tranger Musical qualities in Samuel Beckett's *En attendant Godot* Silence in John Cage and Samuel Beckett 4 33 and *En attendant Godot* John Cage's collaboration of words and music in the song books *The edited performance Glenn Gould's solitude trilogy* Musical and verbal counterpoint in two short films about Glenn Gould The Routledge Companion to Sound Studies Michael Bull, 2018-10-29 *The Routledge Companion to Sound Studies* is an extensive volume presenting a comparative and historically informed understanding of the workings of sound in culture while also mapping potential future directions for research in the field Experts from a variety of disciplines within sound studies cover such diverse topics as politics gender media race literature and sport Individual sections that consider the importance of sound in an increasingly mediated world the role that sound media play in the construction of experience and the ways in which sound has been theorized to produce a distinctive sensory contribution to knowledge This wide ranging and vibrant collection provides a rich resource for scholars and students of media and culture *Sounds of Black Switzerland* Jessie Cox, 2025-01-03 Writing as a scholar composer and musician Jessie Cox foregrounds the experience of Black Swiss through sound and music in his first book *Sounds of Black Switzerland* Cox himself Black Swiss affirms the value of Black life through sound while critiquing anti Blackness as a cause of erasure silence and limitation He examines Swiss Nigerian composer Charles Uzor's pieces for George Floyd work by Black Swiss musicians such as DJ Ma t Ch ni re clarinetist J r mie Jolo and rapper Nativ as well as his own musical collaborations with the Lucerne Festival In these analyses Cox tackles the particularities of anti Blackness in Switzerland creating a practice of listening beyond what can be directly heard to explore the radical potential of Black thought and experience in a nation often claimed to be race free In so doing he ultimately shifts thinking about Blackness in relation to citizenship immigration laws gender kinship and belonging By listening to Black Swiss and other voices inaudible
