

Storytelling Lesson Plan

The art of storytelling and its history can be fascinating for kids. Get kids pumped about storytelling through this fun lesson plan.

Lesson Materials

To complete this lesson with your students, you need:

- fables to read to the students
- paper with space for words, sentences and picture

Lesson Objectives

After the completion of the lesson, students will:

- answer questions about the story and predict what will happen next
- offer their own examples of morals and lessons to the rest of the class
- draw pictures and write sentences demonstrating their understanding of the lesson

Fable Lesson Plan Introduction

Start by giving students a short history of fables and oral traditions. Then, read the fable example out loud to the students. Select a book that is not too challenging for the students at beginning levels but not too boring for the more advanced students.

1. Throughout the course of the reading, stop and ask questions such as:
 - What do you think will happen next?
 - What is this character like?
 - Can you tell me what happened so far in the story?
2. These questions serve to introduce students to the art of storytelling and the important aspects of listening and reading.

Teach Moral Concept and Discussion

Once the story is finished, introduce the concept of the moral of the story.

1. Ask students the following question:
 - What did you learn from listening to this story?
2. Allow several students to provide an answer.
3. Use this discussion to segway into a brief lecture on the moral of a story.
4. Provide a clear definition of the moral of a story.

Storyteller, Storyteacher Marni Gillard, 1996 Marni Gillard has told stories to preschoolers middle schoolers and college students and elicited their tales in return She s heard triumph and trauma tales from prison inmates senior citizens and both preservice and veteran teachers She s witnessed repeatedly that we teach ourselves how to live by telling our stories In this book she shares the lessons she s learned about child centered teaching and telling Storyteller Storyteacher includes The important difference between reading aloud and storytelling How children can learn from the natural storytellers in their lives How to retrieve early memories How to choose the right story to tell Strategies and reasons for the use of visualization A perspective on performance anxiety and reluctant tellers How less competent readers and writers find a safe and success strewn path to literacy through oracy How oral stories help build community from the first day of school His book speaks to the soul of the experienced but often weary teacher and shines a light of encouragement on the path before the beginning teacher It honors the important work of parenting and of listening to children in and out of school It invites us all to look to our stories for lessons about educating our children and ourselves

Interactive Collaborative Learning Michael E. Auer, David Guralnick, James Uhomoibhi, 2016-12-31 This book presents the proceedings of the 19th International Conference on Interactive Collaborative Learning held 21-23 September 2016 at Clayton Hotel in Belfast UK We are currently witnessing a significant transformation in the development of education The impact of globalisation on all areas of human life the exponential acceleration of developments in both technology and the global markets and the growing need for flexibility and

agility are essential and challenging elements of this process that have to be addressed in general but especially in the context of engineering education To face these topical and very real challenges higher education is called upon to find innovative responses Since being founded in 1998 this conference has consistently been devoted to finding new approaches to learning with a focus on collaborative learning Today the ICL conferences have established themselves as a vital forum for the exchange of information on key trends and findings and of practical lessons learned while developing and testing elements of new technologies and pedagogies in learning
