The image shows a double-page spread of a time blocking planner template. Each page is titled "Time Blocking" and features a grid for scheduling. The grid is divided into four columns: "Date", "Time", "Event", and "Notes". The "Date" column is for the day of the week, "Time" for the hour, "Event" for the activity, and "Notes" for additional details. The template is designed for a spiral-bound notebook and includes a central binding area.

Fresh Food Industries** Matthias Lütke Entrup,2005-07-15 Production planning in fresh food industries is a challenging task  
Although modern Advanced Planning and Scheduling APS systems could provide significant support APS implementation  
numbers in these industries remain low Therefore based on an in depth analysis of three sample fresh food industries dairy  
fresh and processed meat the author evaluates what APS systems should offer in order to effectively support production  
planning and how the leading systems currently handle the most distinguishing characteristic of fresh food industries the  
short product shelf life Starting from the identified weaknesses customized software solutions for each of the sample  
industries are proposed that allow to optimize the production of fresh foods with respect to shelf life The book thereby offers  
valuable insights not only to researchers but also to software providers of APS systems and professionals from fresh food
