Incomplete Open Cubes Modular Drawings Prints** ,1976 **Analysis of Variations of Incomplete Open Cubes by Sol Lewitt** Michael Allan Reb,2013 Incomplete open cubes is one of the major projects of the artist Sol Lewitt It consists of a collection of frame structures and a presentation of their diagrams Each structure in the project is a cube with some edges removed so that the structure remains three dimensional and connected Structures are considered to be identical if one can be transformed into another by a space rotation but not reflection The list of incomplete cubes consists of 122 structures In this project the concept of incomplete cubes was formulated in the language of graph theory This allowed us to compare the problem posed by the artist with the similar questions of graph theory considered during the last decades Classification of Incomplete cubes was then refined using the language of combinatorics The list produced by the artist was then checked to be complete And lastly properties of Incomplete cubes in the list were studied Yann Sérandour : Incomplete open cubes ; [this box presented in the form of a numbered open edition can contain up to twelve copies of Sol Lewitt's book Incomplete Open Cubes (The John Weber Gallery, New York, 1974) ...] Yann Sérandour,2010 **Incomplete Open Cubes** Sol LeWitt,1974 Tir du site Artgallery The Incomplete open cubes are a sequence of open sided cube structures each missing between one and nine of their sides At once repetitive and varied this series lays out 122 possible variations on the concept The Incomplete open cubes exemplify LeWitt s conceptual practice and have been widely interpreted as embodying systematic rationality they are based on an arithmetic concept which they then take to its logical extreme While they are internally consistent they also manifest an irrational obsessive quality reflected in LeWitt s own comment that irrational thoughts should be followed absolutely and logically Here he presents a binary between the rational and the irrational **Sol LeWitt. Wall Drawings, Drawings and Incomplete Open Cubes** ,1975 Like Andy Warhol Jonathan Flatley,2023-01-04 There are over 30 books about Andy Warhol Jonathan Flatley s will be the first that is truly comprehensive there s so much more to Warhol than the famous silk screens of Marilyn Monroe or the Campbell s soup cans and the first to reveal the internal logic of the artist s life and his aesthetic activities showing what binds them together enabling us to see his art and life as a totality Here s a partial inventory of Warhol s doings movies this includes Warhol s affection for bad acting his collecting jewelry Art Deco furniture perfumes conversation tapes 10 000 hours snapshots 66 000 even scores of Polaroids of male genitals visitors to his studio were asked to drop their pants for the camera and in addition to the silk screens the paintings drawings prints sculptures as well as novels and memoirs there was even a monthly gossip magazine For one two year period everyone who came to his studio the Factory was obliged to take a screen test a collectivity of misfits misfitting together Warhol had an extraordinary talent for liking things Flatley appropriates liking as a central theme here

showing how Warhol helps us see likeness across differences Like Andy Warhol is the best full length study of the artist and no single artist today is more representative of postmodern culture than Warhol

**Autobiography Sol LeWitt 1980** Sol LeWitt, 1980 When published *Autobiography* was one of LeWitt's eighteen artist books and one of six photography books These books are no less profound than *Autobiography* but *Autobiography* is a more complex ambitious and in some respects intimate project In *Autobiography* LeWitt presents more than a thousand black and white images in grids generally nine to a page The artist catalogues virtually every corner crevice and item in his loft We see an aggregate of unposed images the bare facts of his everyday existence We investigate each image but the significance of this autobiography derives from the connection between images on a page on a spread and from page to page as much as from any individual picture LeWitt's artist books situate themselves among dozens of the artist's structures wall drawings drawings and prints For LeWitt none of these works or media occupies a privileged position Each work is a part of a chain of artistic production Every work is part of a nonhierarchical whole Thus contradictorily LeWitt's *Autobiography* purports to be just another work yet its special significance is undeniable In *Autobiography* LeWitt presents the life of the artist as the life of a particular person in a particular culture at a particular time and place Nevertheless *Autobiography* is unique in his oeuvre For LeWitt whose drawings wall drawings and structures are seemingly so pure and pared down *Autobiography* is an unparalleled work While it takes its place as one work among equals it is singular in its demonstration that LeWitt's abstract geometric forms are inextricable from the experience of his life and culture from Adam Weinberg's *LeWitt's Autobiography Inventory to the Present*
