How to Read Like a Writer Mike Bunn, When you Read Like a Writer RLW you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing The idea is to carefully examine the things you read looking at the writerly techniques in the text in order to decide if you might want to adopt similar or the same techniques in your writing You are reading to learn about writing Instead of reading for content or to better understand the ideas in the writing which you will automatically do to some degree anyway you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text As you read in this way you think about how the choices the author made and the techniques that he she used are influencing your own responses as a reader What is it about the way this text is written that makes you feel and respond the way you do
