Smallest Turtle:

Tiny Turtle 32 Laura Tunmer, 2026-02-16 Tiny Turtle 32 a heartwarming and educational photographic picture book perfect for children ages 5 to 10 Follow her a curious baby sea turtle as she hatches from her egg and braves the sandy shore to find the ocean for the very first time Along the way she learns about courage resilience and strength of character She asks the children if they have had similar feelings and the book provides space for children to reply with their own drawings or writing These beautiful original photographs from turtle rescue in Kefalonia with a couple of AI photographs show gentle life lessons Tiny Turtle 32 shares her emotions provides space for discussion and also helps young readers understand the importance of protecting sea life and our oceans Ideal for bedtime or the classroom this book is perfect for parents teachers and caregivers looking to inspire curiosity and compassion in young readers creating special moments between child and caregiver creating a space to discuss feelings or draw pictures when words cannot be found The book has a factual section detailing Loggerhead Turtle facts A donation from each book sale will be collected and sent to Wildlife Sense in Kefalonia for their continued conservation work with the Turtles

First Report on the Economic Features of Turtles of Pennsylvania... Harvey Adam Surface, 1908 *Sea Turtles* Blair E. Witherington, 2006 Streamlined and equipped with flippers sea turtles seem uniquely adapted for water yet remain firmly attached to land where the females lay their eggs each year They sport the many colors of the rainbow range in weight from 100 to 1 300 pounds and figure in the mythology and folklore of cultures around the world And still they currently risk extinction In this book marine biologist Blair Ernest Witherington who has devoted decades to these ancient creatures offers readers an in depth look into their mysterious world Accompanied by exquisite photographs his descriptions comprise a personal introduction to these strangely graceful marine reptiles Detailed lively and up to date imagery tells the story of sea turtles distant origins their specialized form and undersea challenges senses and life cycle world voyages and navigational talents and their ecological roles The most comprehensive overview of sea turtles to date this book portrays each of the seven species in close up offering information on appearance distribution movements life history reproduction diet unique traits and conservation
