## The Egg

We all know the familiar question, what came first? The chicken or the egg? The same goes for the snail life cycle. So we will start with the egg.

## Young Snail

The young snail will continue with his search for food – preferably types of food that are high in calcium – and attempting to avoid predators.

## Baby Snail

## Adult Snail

The adult snail life revolves around finding food, finding a mating partner, laying eggs and generally trying to survive.
