and Empirical Practice** Andrea C. Schalley,2012-12-19 There is a perceived tension between empirical and theoretical
approaches to the study of language Many recent works in the discipline emphasise that linguistics is an empirical science
This volume argues for a nuanced view highlighting that theory and practice necessarily and as a matter of fact complement
each other in linguistic research Its contributions ranging from experimental studies in psychology via linguistic fieldwork
and cross linguistic comparisons to the application of formal and logical approaches to language exemplify the mutual
relationship between empirical and theoretical work The volume illustrates how selected topics are addressed by different
contributions and methodological stances Topics include the cognitive grounding of language social cognition and the
construction of meaning in interaction and closely related pragmatics from a typological perspective and beyond Anyone
interested in these topics and more generally in meta theoretical considerations will find great value in this volume
