Temple Tiger:

The Temple Tiger Jim Corbett, 2024-11-18 The Temple Tiger offers a unique perspective on Jim Corbett's life and work showcasing the mysterious and sacred aspect of the wild in India. This collection of stories revolves around the elusive Temple Tigers, tigers that roam near or within the grounds of ancient temples in the foothills of the Himalayas where superstition and reverence intertwine with the reality of life in the jungle. These tigers are often seen as spiritual beings and Corbett's deep respect for their majestic presence is palpable in every page. Through vivid descriptions he takes readers on thrilling hunts, sharing stories of the creatures that both frightened and fascinated the local people. Corbett weaves together the mystical and the practical, exploring how these tigers became both feared predators and revered protectors in local folklore. With a mix of adventure, philosophy, and reverence for both the human and animal worlds, The Temple Tiger also touches on Corbett's personal journey from hunter to conservationist. As he learns to understand the deeper complexities of human-animal interactions, Corbett reveals a side of the jungle that is not only wild but sacred. The stories in The Temple Tiger highlight his evolving respect for the natural world, making it a powerful meditation on the delicate balance between mankind and nature, as well as the untamed spirit of India's forests.

The Temple Tiger, and More Man-eaters of Kumaon Jim Corbett, 1955 TEMPLE TIGER. JIM. CORBETT, 2022 The Inhuman Empire Sadhana Naithani, 2024-05-20

This book is a study of selected texts of British writings on Indian wildlife published between 1860 and 1960. Set in the context of British colonial rule in India, this book also reflects on similar situations across the British Empire and other colonial empires. The destruction of wildlife in the making of empires is a subject not yet fully explored in scholarship. This book aims to speak to global concerns regarding the extinction of several species and shows that the crisis has international roots. The Inhuman Empire breaks new grounds as it juxtaposes colonial narratives to folk narratives. These two types of narratives treat nonhuman animals very differently: folk narrative considers them sentient beings, while colonial narratives see them as game and do not care for their sentience. Both types of narratives are further evaluated with reference to the contemporary position of natural sciences regarding animal sentience and of anthropologists and philosophers regarding the relationship between nature and culture. Analyzing colonial accounts of hunting, the author looks at the pain and suffering of nonhuman animals and combines statistics alongside narratives of British writers, Indian populace, and nonhuman animals in order to show how narratives reflect and impact reality. This book will be of great value to those interested in Animal Studies, Folkloristics, the history of Colonialism and India.
