**Industrialization and the Working Class Family** Elinor Ann Accampo, 1984 **The British Working Class in the Twentieth Century** John Kirk, 2009 This title challenges suggestions that class is no longer relevant for literary analysis It examines how the lives and experiences of working class people have changed over the past century and how these changes have been depicted and explored in a range of fictional and non fictional texts and films **The Capitalist State and the**

**Politics of Class** Albert Szymanski, 1978      *Class Concerns: Adult Education and Social Class* Tom Nesbit, 2005-06-08 This volume brings together leading progressive adult educators to explore how class affects different arenas of adult education practice and discourse. It highlights the links between adult education, the material and social conditions of daily and working lives, and the economic and political systems that underpin them. Chapters focus on adult education policies, teaching, learning, and identity formation, educational institutions, and social movements, and the relationships between class, gender, and race. Overall, the volume reaffirms the salience of class in shaping the lives we lead and the educational approaches we develop. It offers suggestions for adult educators to identify and resist the encroachments of global capitalism and understand the role of education in promoting social equality. Finally, it suggests that a class perspective can provide an antidote to much of the social amnesia, self-absorption, and apolitical theorizing that pervades current adult education discourse. This is the 106th volume of the Jossey-Bass quarterly report series *New Directions for Adult and Continuing Education*.
