*The Philosopher's Song* Kevin Crotty, 2009-12-29 *The Philosopher's Song* is a full length treatment of Plato and the dynamic course of his philosophical thought regarded from a distinctly poetic point of view Kevin Crotty demonstrates how Plato's invention of philosophy needs to be situated within the context of a society where poets were cultural authorities whose teachings emphasized such tragic themes as the instability of things and the indeterminacy of moral terms The interest of Plato's philosophy lies to a great extent in the compelling interest of what he sought to repress the poetic and political heritage of a world tragically conceived Plato's attacks on the poets are notorious Despite his apparently frank hostility however his relation to the poets was exceedingly complex argues Crotty Even the banishment of the poets in the Republic turns out to be more deeply a recruitment of mimetic poetry for Plato's metaphysics Once endowed with a metaphysical significance however the poets posed a serious challenge to Platonic idealism and spurred Plato to revise considerably his metaphysical scheme Crotty ultimately concludes that the views of politics and ethics in Plato's later works return in many ways to the insights of the poets

*The Philosopher's Gaze* David Michael Levin, 2023-04-28 David Michael Levin's ongoing exploration of the moral character and enlightenment potential of vision takes a new direction in *The Philosopher's Gaze* Levin examines texts by Descartes Husserl Wittgenstein Nietzsche Heidegger Benjamin Merleau Ponty and Levinas using our culturally dominant mode of perception and the philosophical discourse it has generated as the site for his critical reflections on the moral culture in which we are living In Levin's view all these philosophers attempted to understand one way or another the distinctive pathologies of the modern age But every one also attempted to envision if only through the faintest of traces traces of mutual recognition traces of another way of looking and seeing the prospects for a radically different lifeworld The world after all inevitably reflects back to us the character the reach and range of our vision

In these provocative essays the author draws on the language of hermeneutical phenomenology and at the same time refines phenomenology itself as a method of working with our experience and thinking critically about the culture in which we live. This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact. Drawing on a backlist dating to 1893, Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology. This title was originally published in 1999. David Michael Levin's ongoing exploration of the moral character and enlightenment potential of vision takes a new direction in *The Philosopher's Gaze*. Levin examines texts by Descartes, Husserl, Wittgenstein, Nietzsche, Heidegger, Benjamin Merleau-Ponty, and others. **The Philosopher's Stone** Barbara R. Barry, 2000. *The Philosopher's Stone* is a collection of case studies in compositional process, not so much about how the music was arrived at through its sketch stages but more about construction of issues of form as the defining features of a genre and structure as the individual realization in a particular work. Great musical movements and works are seen as highly creative solutions to problem solving. The contexts of the works differ considerably. Some were written against the background of a specific precedent or model as with Mozart's Haydn quartets via Haydn's Op. 33 set. In other cases as with Beethoven's middle period style the composer reconsiders a comprehensive range of implications about style and construction of how after earlier successes now outworn to make a new and significant contribution to the genre without duplicating earlier solutions. The essays are grouped into three sections on Beethoven studies, Mozart in retrospect, and nineteenth century music. All the movements and works in these chapters pose in their different ways these issues of structural reinterpretation and re-formation where the reworking of the form leads to a distinctive and higher level transformation.
