## Smith Valley:

**USDA Report on Water and Related Land Resources: Central Lahontan Basin, Walker River Subbasin, Nevada-California** United States. USDA Nevada River Basin Survey Staff, 1969 The objective of the Walker River Subbasin Report is to contribute to comprehensive planning for the coordinated and orderly development management and use of water and related land resources of the subbasin It is anticipated that the information presented in this report will 1 identify the present and potential land and water problems and opportunities for solving them 2 provide a basis for more effective coordination of U S Department of Agriculture resource programs with the related activities of each State and with other Federal agencies 3 provide a sound basis for the development of water and related land resources by means of Public Law 566 projects for other programs 4 indicate opportunities for development of water resources and the rehabilitation of depleted watersheds and rangelands of the national forest and public domain as part of the multiple use programs for these Federal lands This subbasin report includes 1 an inventory of the natural resources 2 an analysis of economic development 3 a definition of the causes and extent of the resource problems 4 an indication of present and future needs for resource development 5 a short discussion of existing resource projects and programs 6 a description of the resource development potential 7 an indication of the opportunities for development under U S Department of Agriculture programs and 8 suggested future programs and coordination needs among all groups and agencies The natural resource inventory was supplemented by a detailed reconnaissance soil survey covering the subbasin The results of the survey produced a broad but comprehensive summation of the subbasin s most basic resource along with an interpretative tabulation of the hazards limitations and potentials for its use Page 1
