Terms And Truth:

Truth Henry Du Pré Labouchere,1879 **A Time to Speak** Archibald MacLeish,1940 **What Pragmatism Was** F. Thomas Burke,2013-06-14 A history and exploration of this quintessentially American philosophy F Thomas Burke shows how the original maxim of pragmatism was understood differently by the two earliest American pragmatists William James and Charles S Peirce Burke reconciles these differences by casting pragmatism as a philosophical stance that endorses distinctive conceptions of belief and meaning In particular on Burke s view a pragmatist conception of meaning as encapsulated in the pragmatic maxim should be understood as both inferentialist and operationalist in character Burke unravels a complex early history of this philosophical tradition discusses contemporary conceptions of pragmatism found in current US political discourse and explores what this quintessentially American philosophy means today **The Principles of Philosophy** Mohammad M. Tajdini,2026-01-08 Presents a universal defense of the rational moral law and a strong and uncompromising criticism of skepticism and relativism **The Christian System** Alexander Campbell,1901 **The Millennial Harbinger Abridged** ,1902 **The Inner Teachings of the Philosophies and Religions of India** Ramacharaka,1909 **Act-based Conceptions of Propositional Content** Friederike Moltmann,Markus Textor,2017 The notion of a propositional content plays a central role in contemporary philosophy of language Propositional content makes up both the meaning of sentences and the content of propositional attitudes such as belief One particular view about propositional content has been dominant in analytic philosophy namely the Fregean conception of propositions as abstract mind independent objects that come with truth conditions But propositions in this sense raise a range of issues which have become a center of debate in current philosophy of language In particular how should propositions as abstract objects be understood and how can they represent things and be true or false A number of philosophers in contemporary analytic philosophy as well as in early analytic philosophy and phenomenology have approached the notion of a propositional content in a different way not by starting out with an abstract truth bearer but by focusing on cognitive acts of agents such as acts of judging It is in terms of such acts that the notion of a propositional content on their view should be understood The act based perspective historically goes back to the work of Central European philosophers in particular that of Husserl Twardowski Meinong and Reinach However their work has been unduly neglected and is in fact largely inaccessible to contemporary analytic philosophers The volume presents a central selection of work of these philosophers that bear on an act based conception of philosophical content some of which in new translations one paper by Reinach some of which published in English for the very first time two papers by Twardowski In addition the volume presents new work by leading contemporary philosophers of language pursuing or discussing an act based conception of propositional content Moreover the book contains a crosslinguistic study of nominalizations for actions and products a distinction that plays a central role in the philosophy of language of Twardowski

Pragmatism and Four Essays from the Meaning of Truth William James,1909 **Boston Studies in the Philosophy of**

Science Robert S. Cohen, Marx W. Wartofsky, 2012-12-06 In this fifth volume of Boston Studies in the Philosophy of Science we have gathered papers about the logic and methods of the natural sciences Along with the individual pieces there are several which have originated as commentaries but are now supplementary contributions those by Stachel and Putnam Grinbaum's long essay developed from a paper first suggested for our Colloquium some years ago and we are glad of the occasion to publish it here Several of the papers were not first presented to our Colloquium but they are the work of friends and scholars who have contributed to our discussions along similar lines We are grateful to them for allowing us to publish their papers L Bernard Cohen Hilary Putnam Mihailo Markovic And we are also grateful to C F von Weizsacker for his paper recently presented to the Boston philosophical and scientific community as a lecture at MIT With these few exceptions the fifth volume presents work which was partially supported by a grant from the U S National Science Foundation to Boston University Such support will conclude with the fourth volume of philosophical studies of psychology the social sciences history and the inter relationships of the sciences with ethics and metaphysics Unimportant circumstances made it necessary to publish that fourth volume after this fifth volume and perhaps this will mildly suggest that neither science nor the philosophy of science needs to be constrained by orthodoxy of procedure *Mind*, 1916 A journal of philosophy covering epistemology metaphysics philosophy of language philosophy of logic and philosophy of mind The Conception of God Josiah Royce, 1895 *Annual Session of the Baptist Congress for the Discussion of Current Questions, Held at ...*, 1906

Ockham's Assumption of Mental Speech Sonja Schierbaum, 2014-06-26 In *Ockham's Assumption of Mental Speech* Thinking in a World of Particulars Sonja Schierbaum advances a detailed philosophical reconstruction of William Ockham's 1287-1349 conception of mental speech Ockham's conception provides a rich account of cognition and semantics that binds together various philosophical issues and forms a point of departure for many later and even contemporary debates The book analyses the role of mental speech for the semantics and the use of linguistic expressions as well as its function within Ockham's cognitive theory and epistemology Carefully balancing Ockham's position against contemporary appropriations in the light of Fodor's LOT it allows us to understand better Ockham's view on human thought and its relation to language
