The Hidden Web Maureen Henninger,2008 A generation has grown up believing that everything can be found on the Web But how do you separate quality information from the dross Maureen Henninger addresses these and other such issues and assumes that for most readers the Internet is no longer a mystery   The Last Letter Home Vilhelm Moberg,1995 Considered one of Sweden s greatest 20th century writers Vilhelm Moberg created Karl Oskar and Kristina Nilsson to portray the joys and tragedies of daily life for early Swedish pioneers in America His consistently faithful depiction of these humble people s lives is a major strength of the Emigrant Novels Moberg s extensive research in the papers of Swedish emigrants in archival collections including the Minnesota Historical Society enabled him to incorporate many details of pioneer life First published between 1949 and 1959 in Swedish these four books were considered a single work by Moberg who intended that they be read as documentary novels These editions contain introductions written by Roger McKnight Gustavus Adolphus College and restore Moberg s bibliography not included in earlier English editions Book 4 portrays the

Nilsson family during the turmoil of living through the era of the Civil War and Dakota Conflict and their prospering in the midst of Minnesota s growing Swedish community of the 1860s 90s It s important to have Moberg s Emigrant Novels available for another generation of readers Bruce Karstadt American Swedish Institute **The Excluded Wife** Yuen-fong Woon,1998 The Chinese Immigration Exclusion Act passed by the Canadian government in 1923 stopped the families of Chinese labourers working in Canada from entering the country Based on extensive interviews with Chinese women affected by the Exclusion Act Yuen fong Woon has written a riveting novel of their experiences told through the character of Sau Ping A village woman from South China Sau Ping marries an overseas Chinese from Canada in the late 1920s but the Exclusion Act prohibits her from joining him in Canada For more than twenty years she remains in China separated from her husband taking care of his family members and struggling to survive during a turbulent period of Chinese history To escape political persecution Sau Ping flees to Hong Kong and spends three years enduring the appalling conditions of a refugee With the repeal of the Chinese Exclusion Act she is finally reunited with her husband in Canada but her struggle continues as she tries to rebuild her life with a husband she barely knows in an alien culture she does not understand The Excluded Wife gives voice to the first generation of post war Chinese immigrant women capturing the tragedy courage and triumph of those women who made the epic journey from China to Canada Yuen fong Woon is professor of Pacific and Asian Studies University of Victoria From the Ashes of Sobibor Thomas Toivi Blatt,1997 Blatt s account of his childhood in Izbica provides a fascinating glimpse of Jewish life in Poland after the German invasion and during the period of mass deportations of Jews to the camps Blatt s tale of escape and of the five horrifying years spent eluding both the Nazis and later anti Semitic Polish nationalists is a firsthand account of one of the most terrifying and savage events of human history **Taylor Reprints** Archer Taylor,1927 *Advanced CORBA® Programming with C++* Michi Henning,Steve Vinoski,1999-02-17 Here is the CORBA book that every C software engineer has been waiting for Advanced CORBA Programming with C provides designers and developers with the tools required to understand CORBA technology at the architectural design and source code levels This book offers hands on explanations for building efficient applications as well as lucid examples that provide practical advice on avoiding costly mistakes With this book as a guide programmers will find the support they need to successfully undertake industrial strength CORBA development projects The content is systematically arranged and presented so the book may be used as both a tutorial and a reference The rich example programs in this definitive text show CORBA developers how to write clearer code that is more maintainable portable and efficient The authors detailed coverage of the IDL to C mapping moves beyond the mechanics of the APIs to discuss topics such as potential pitfalls and efficiency An in depth presentation of the new Portable Object Adapter POA explains how to take advantage of its numerous features to create scalable and high performance servers In addition detailed discussion of advanced topics such as garbage collection and multithreading provides developers with the knowledge they need to write commercial applications Other highlights In

depth coverage of IDL including common idioms and design trade offs Complete and detailed explanations of the Life Cycle Naming Trading and Event Services Discussion of IIOP and implementation repositories Insight into the dynamic aspects of CORBA such as dynamic typing and the new DynAny interfaces Advice on selecting appropriate application architectures and designs Detailed portable and vendor independent source code **Fighting with the Filthy Thirteen** Jack Womer,Stephen C. DeVito,2012-05-18 Womer reveals his own inside account of fighting as a spearhead of the Screaming Eagles in Normandy Holland and the Battle of the Bulge Tucson Citizen In 2004 the world was first introduced to The Filthy Thirteen a book describing the most notorious squad of fighting men in the 101st Airborne Division and the inspiration for the movie The Dirty Dozen Now Jack Womer one of the squad s integral members and probably its best soldier delivers his long awaited memoir Originally a member of the 29th Rangers which was suddenly dissolved Womer asked for transfer to another elite unit the Screaming Eagles where room was found for him among the division s most miscreant squad of brawlers drunkards and goof offs Beginning on June 6 1944 however the Filthy Thirteen began proving themselves more a menace to the German Army than they had been to their own officers and the good people of England embarking on a year of ferocious combat at the very tip of the Allied advance in Europe In this work with the help of Stephen DeVito Jack provides an amazingly frank look at close quarters combat in Europe as well as the almost surreal experience of Dust Bowl era GI s entering country after country in their grapple with the Wehrmacht finally ending up in Hitler s mountaintop lair in Germany itself Jack Womer s story is entertaining honest and forthright just like the man He does not shrink from describing what actually happened although occasionally one suspects just a hint of artistic license However there is nothing which is unbelievable given the chaotic and random nature of war Army Rumour Service **Christian Advocate** ,1927 *The Routledge Handbook of Philosophy of Animal Minds* Kristin Andrews,Jacob Beck,2017-07-06 While philosophers have been interested in animals since ancient times in the last few decades the subject of animal minds has emerged as a major topic in philosophy The Routledge Handbook of Philosophy of Animal Minds is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind Comprising nearly fifty chapters by a team of international contributors the Handbook is divided into eight parts Mental representation Reasoning and metacognition Consciousness Mindreading Communication Social cognition and culture Association simplicity and modeling Ethics Within these sections central issues debates and problems are examined including whether and how animals represent and reason about the world how animal cognition differs from human cognition whether animals are conscious whether animals represent their own mental states or those of others how animals communicate the extent to which animals have cultures how to choose among competing models and explanations of animal behavior and whether animals are moral agents and or moral patients The Routledge Handbook of Philosophy of Animal Minds is essential reading for students and researchers in philosophy of mind philosophy of psychology ethics and related disciplines such as ethology biology psychology linguistics
