The grid is organized into four columns: "Date", "Time", "Activity", and "Notes". The "Date" column is a single cell at the top of each page. The "Time" column contains time slots from 8:00 to 10:00 in 30-minute increments. The "Activity" column is the largest, with rows corresponding to the time slots. The "Notes" column is a narrow column on the right side of each page. Below the grid, there is a section for "Tasks" with a list of lines for writing. The planner is bound in the center with a silver spiral binding. The background is a light purple gradient.

Incremental Non-linear Planner Steve A. Chien,1990 Abstract This paper describes a non linear planner that uses incremental inference to deal with complexity of planning using a representation with conditional effects This planner constructs initial plans using limited inference to reason about conditional effects of operators While this significantly reduces the computational expense of plan construction it introduces the possibility that the initial plan will make incorrect predictions Because the planner uses a sound method for plan construction sound except for the limited consideration of effects when a plan fails it must be due to an unconsidered conditional operator effect Time Briton Hadden, Henry R.
