L. Zales'ka Onyshkevych,Marrii Revakovyh,2009 The concept of a return to Europe has been integral to the movement for Ukrainian national rebirth since the nineteenth century While the goal of a more fully reformed politics remains elusive numerous expressions of Ukrainian culture continue to develop in the European spirit This wide ranging book explores Ukraine s European cultural connection especially as it has been reestablished since the country achieved independence in 1991 The contributors discusses many aspects of Ukraine s contemporary culture history politics and religion in Part I literary culture in Part II and language popular culture and the arts in Part III What emerges is a fascinating picture of a young country grappling with its divided past and its colonial heritage yet asserting its voice and preferences amid the diverse and at times conflicting realities of the contemporary political scene Europe becomes a powerful point of reference a measure against which the situation in post independence Ukraine is gouged and debated This framework allows for a better understanding of the complexities deeply ingrained in the social fabric of Ukrainian society Lonely Planet Ukraine Lonely Planet,Marc Di Duca,Greg Bloom,Leonid Ragozin,2018-07-01 Lonely Planet The world s number one travel guide publisher Lonely Planet s Ukraine is your passport to the most relevant up to date advice on what to see and skip and what hidden discoveries await you Sip morning coffee in Lviv s cosy cafes hike the flower filled upland pastures and wide snaking valleys of the Carpathian Mountains and take a guided tour of Chernobyl all with your trusted travel companion Get to the heart of Ukraine and begin your journey now Inside Lonely Planet s Ukraine Colour maps and images throughout Highlights and itineraries help you tailor your trip to your personal needs and interests Insider tips to save time and money and get around like a local avoiding crowds and trouble spots Essential info at your fingertips hours of operation phone numbers websites transit tips prices Honest reviews for all budgets eating sleeping sightseeing going out shopping hidden gems that most guidebooks miss Cultural insights provide a richer more rewarding travel experience covering history people music arts landscapes wildlife cuisine politics Covers Kyiv Central Ukraine Lviv it s in every traveller s hands It s on mobile phones It s on the Internet It s everywhere and it s telling entire generations of people how to travel the world Fairfax Media Australia Source Nielsen BookScan Australia UK USA 5 2016 4 2017 Important Notice The digital edition of this book may not contain all of the images found in the physical edition **Ukraine, the Land and Its People** Stephen Rudnicki,1918 **Thinking with Maps** Bertram C. Bruce,2021-05-15 A 2022 Choice Reviews Outstanding Academic Title Spatial reasoning which promises connection across wide areas is itself ironically often not connected to other areas of knowledge Thinking with Maps Understanding the World through Spatialization addresses this problem developing its argument

through historical analysis and cross disciplinary examples involving maps The idea of maps here includes traditional cartographic representations of physical environments but more broadly encompasses the wide variety of ways that visualizations are used across all disciplines to enable understanding to generate new knowledge and to effect change The idea of thinking with maps is also used broadly Maps become not simply one among many items to learn about but indispensable tools for thinking across every field of inquiry in a way similar to that of textual and mathematical language Effective use of maps becomes a way to make knowledge much as writing or mathematical exploration not only displays ideas but also creates them The book shows that maps for thinking are not just a means to improve geographic knowledge as valuable as that may be Instead they provide mechanisms for rejuvenating our engagement with the world helping us to become more capable of facing our global challenges This book has a broader aim It is fundamentally about general principles of how we learn and know It calls for a renewed focus on democratic education in which both the means and ends are democratic Education just as the political realm should follow Dewey s dictum that democratic ends need democratic methods for their realization Maps and mapping are invaluable in that endeavor

"Ukrainian Lands" Maps in the University of Alberta Map Collection Paul T. Friesen,1988 **A Red Line in the Sand** David A. Andelman,2021-01-05 A longtime CNN columnist astutely combines history and global politics to help us better understanding the exploding number of military

political and diplomatic crises around the globe The riveting and illuminating behind the scenes stories of the world s most intense red lines from diplomatic and military challenges at particular turning points in history to the ones that set the tone of geopolitics today Whether it was the red line in Munich that led to the start of the Second World War to the red lines in the South China Sea the Korean Peninsula Syria and the Middle East As we traverse the globe Andelman uses original documentary research previously classified material and interviews with key players to help us understand the growth the successes and frequent failures that have shaped our world today Andelman provides not just vivid historical context but a political anatomy of these red lines How might their failures be prevented going forward When and how can such lines in the sand help preserve peace rather than tempt conflict A Red Line in the Sand is a vital examination of our present and the future where does diplomacy end and war begin It is an object lesson of tantamount importance to every leader diplomat citizen and voter As America establishes more red lines than it has pledged to defend every American should understand the volatile atmosphere and the existential stakes of the red web that encompasses the globe
