What Is Religion:

What is Religion? Wilhelm Bousset,1911 **What is Religion?** Robert George Crawford,2002-01 We all know what religion is or do we Confronted with religious pluralism and cultural diversity it manifests itself in many forms What is Religion serves not only as an introduction to the different belief systems flourishing throughout the modern world but asks us to consider how the very boundaries of faith might be drawn now and in the future How might religion interact with political ends or permeate culture society and everyday life Is the post secular world in thrall to religions of its own kind materialism humanism medicine science And what logic separates common sense or academic knowledge from the immutable but unstable boundaries of faith Which is the more certain What does it mean to believe Combining clear accounts of contemporary global religious practice with an incisive philosophical interrogation of the dynamics and aims of belief What is Religion offers a fresh and wide ranging introduction to the perennial human questions of ritual faith ethics and salvation

What is Religion? Idinopulos,Brian C. Wilson,2018-09-24 What is Religion consists of fourteen essays written by a selection of scholars who represent a wide spectrum of approaches to the academic study of religion Each of the essays is an effort not only to take stock of the present controversy concerning appropriate methodologies for the study of religion but also to take one giant step beyond that to formulate a precise definition of religion Given the considerable confusion today about what it is exactly that religious studies scholars take to be their subject matter when they presume to professionally teach about religion this volume provides a much needed forum for leading scholars to debate and clarify what professors of religious studies understand as the central object or objects under their scrutiny *What is Religion?* John F. Haught,1990

Surveys the history of religion identifies four ways of being religious and discusses secularism skepticism nihilism and humanism What Is Religion? Thomas A. Idinopulos,Brian Courtney Wilson,1998 Of Religion BRIAN C WILSON **What is Religion?** Alban G. Widgery,2023-01-20 First Published in 1953 What is Religion provides an understanding of religious faith which embraces all of the great and enduring religions In the process it strips off the irrelevant and inconsequential which every religion accumulates in the course of time and gets in back of rigid formulations of faith to the primary experiences of the single religious man Through its detailed consideration of world faiths runs an appealing and consistent philosophy of religion for everyman Alban Widgery's aim throughout is constructive with the purpose of showing religion as supreme in life and of defending its beliefs against forms of antireligious thought He maintains that the view he presents is more true of religion as it has been in history and also to the general conditions of mankind This book is a must read for scholars and researchers of philosophy of religion and religion in general What is Religion? Robert Crawford,2002

What is Religion? Robert George Crawford,2002 What is Religion serves not only as an introduction to the different belief systems flourishing throughout the modern world but asks us to consider how the very boundaries of faith might be drawn now and in the future **What is Religion?** Nigel Ajay Kumar,2014-01-15 What Is Religion is one of those questions

rarely asked by Christian theologians who engage in interreligious discourse Nigel Ajay Kumar makes the case however that to answer this question is critical for Christian scholars who want to negotiate multiple religious identities as well as for those who want a clearer understanding of their own faith as religion Kumar takes a historical and theological approach to answering this question The history of the concept of religion is traced from biblical times to the Indian independence era Then a theological answer is offered not only by looking at the classical Indian theologian Pandipeddi Chenchiah but also by listening to other contemporary secular and theological voices This is the South Asian Edition of the original Wipf Stock edition 2013 with the same name

What is Religion? Aaron W. Hughes, Russell T. McCutcheon, 2021 Controversies over how to define the word religion have persisted for decades It is a term of art and of academic study but also one of governance technologies and of networks it is a concept whose diversity is often its own worst enemy Religion is

as much a fuzzy set of conceptualizations and generalizations about a range of human activities as it is an authorizing system of persons ideas and practices

What is Religion Debating the Academic Study of Religion invites readers to eavesdrop on scholarly debates over the limits of and uses for a word commonly used but infrequently defined in a precise manner This volume takes the temperature of the modern field of Religious Studies by inviting a diverse group of scholars to offer their own substantive contribution that builds on the shared opening prompt Religion is Their essays document the current state of the field and its various sub fields assess the progress that has been made over the past generation and propose new directions for future work Seventeen of the international field s leading scholars show how they work with each other s definition or sometimes the lack of a definition Of interest to students scholars and general readers alike What is Religion will provoke debate and provide insights into the state of the field

Religion Hent de Vries,2008 What do we talk about when we talk about religion Is it an array of empirical facts about historical human civilizations Or is religion what is in essence unpredictable perhaps the very emergence of the new In what ways are the legacies of religion its powers words things and gestures reconfiguring themselves as the elementary forms of life in the twenty first century Given the Latin roots of the word religion and its historical Christian uses what sense if any does it make to talk about religion in other traditions Where might we look for common elements that would enable us to do so Has religion as an overarching concept lost all its currency or does it ineluctably return sometimes in unexpected ways the moment we attempt to do without it This book explores the difficulties and double binds that arise when we ask What is religion Offering a marvelously rich and diverse array of perspectives it begins the task of rethinking religion and religious studies in a contemporary world Opening essays on the question What is religion are followed by clusters exploring the relationships among religion theology and philosophy and the links between religion politics and law Pedagogy is the focus of the following section Religion is then examined in particular contexts from classical times to the present Pentacostal revival leading into an especially rich set of essays on religion materiality and mediatization The final section grapples with the ever changing forms that religion is taking such as spirituality movements and responses to the ecological crisis Featuring the work of leading scholars from a wide array of disciplines traditions and cultures Religion Beyond a Concept will help set the agenda for religious studies for years to come It is the first of five volumes in a collection entitled The Future of the Religious Past the fruit of a major international research initiative funded by the Netherlands Organization for Scientific Research

The Study of Religion in an Age of Global Dialogue Leonard J. Swidler,Paul Mojzes,2000 Religion is the most fundamental comprehensive of all human activities it tries to make sense out of not simply one or another aspect of human life but of all aspects of human experience At the core of every civilization lies its religion which both reflects and shapes it Thus if we wish to understand human life in general and our specific culture and history we need to understand religion What is religion Religion is an explanation of the ultimate meaning of life and how to live accordingly based on a notion of the Transcendent Normally it contains the four C s Creed

Code Cult Community structure CREED refers To The cognitive aspect of a religion it is everything that goes into the explanation of the ultimate meaning of life CODE OF BEHAVIOR or ethics includes all the rules and customs of action that somehow follow from one aspect or another of the Creed CULT means all the ritual activities that relate the follower to one aspect or another of the Transcendent either directly or indirectly prayer being an example of the former and certain formal behavior toward representatives of the Transcendent such as priests of the latter COMMUNITY STRUCTURE refers To The relationships among the followers this can vary widely from a very egalitarian relationship As among Quakers through a republican structure as Presbyterians have To a monarchical one As with some Hasidic Jews have with their Rebbe THE TRANSCENDENT As the roots of the word indicate means that which goes beyond the everyday The ordinary The surface experience of reality it can mean spirits gods a Personal God An Impersonal God Emptiness etc This volume looks at the ways we humans have developed to study religion However a new age in human consciousness is now dawning The Age of Global Dialogue a radically new consciousness which fundamentally shifts the ways we understand everything in life including religion This global dialogical way of understanding life does not lead to one global religion but it does lead toward a consciously acknowledged common set of ethical principles a Global Ethic The book looks at these two movements the Age of Global Dialogue and inchoative Global Ethic in order to help readers understand what is going on around them So they might make informed intelligent decisions about the meaning of life and how to live it Author note Leonard Swidleris Professor of Religion at Temple University Paul Mojzesis Academic Dean and Professor of Religious Studies at Rosemount College
