What Rachel Saw A Field Guide For Parents:

Sworn (Book #1 of the Vampire Legends) Emma Knight, 2018-04-03 When her dad is transferred Rachel Wood is uprooted from her home in Pennsylvania and forced to enter a new high school in 10th grade in an affluent suburb in Westchester New York She finds herself in way over her head as she struggles to come to grips with meeting new friends finding a boyfriend avoiding the cliques of mean girls and figuring out how to survive in such a hostile new world She has trouble navigating this new world where drinking and drugs seem the norm and where social pressures build on her from every direction Everything seems to go wrong for Rachel until salvation comes in the form of Rob a football player who takes a liking to her But just as their romance is about to blossom she finds herself confused by his actions As things reach a low point Rachel meets a mysterious boy from her school Benji a loner who keeps apart from the other kids and who takes her on a ride on his motorcycle They have an unforgettable night together in an amusement park until something goes horribly wrong and Benji shocks her by saving her life Rachel knows that Benji is different from everyone else and she knows that he is the love of her life And as their romance deepens she has to decide if she is willing to give up everything to find out his secret All 7 books in the series are available

In the Field, Among the Feathered Thomas R. Dunlap, 2011-12-01 America is a nation of ardent knowledgeable birdwatchers But how did it become so And what role did the field guide play in our passion for spotting watching and describing birds In the Field Among the Feathered tells the history of field guides to birds in America from the Victorian era to the present relating changes in the guides to shifts in science the craft of field identification and new technologies for the mass reproduction of images Drawing on his experience as a passionate birder and on a wealth of archival research Thomas Dunlap shows how the twin pursuits of recreation and conservation have inspired birders and how field guides have served as the preferred method of informal education about nature for well over a century The book begins with the first generation of late 19th century birdwatchers who built the hobby when opera glasses were often the best available optics and bird identification was sketchy at best As America became increasingly urban birding became more attractive and with Roger Tory Peterson's first field guide in 1934 birding grew in both popularity and accuracy By the 1960s recreational birders were attaining new levels of expertise even as the environmental movement made birding's other pole conservation a matter of human health and planetary survival Dunlap concludes by showing how recreation and conservation have reached a new balance in the last 40 years as scientists have increasingly turned to amateurs whose expertise had been honed by the new guides to gather the data they need to support habitat preservation Putting nature lovers and citizen activists at the heart of his work Thomas Dunlap offers an entertaining history of America's long standing love affair with birds and with the books that have guided and informed their enthusiasm
