The Politics and Economics of Britain's Foreign Aid Tim Lankester, 2013-06-07 The Pergau dam in Malaysia was the most controversial project in the history of British aid Because of its high cost it was a poor candidate for aid funding It was provided in part to honour a highly irregular promise of civil aid in connection with a major arms deal After two parliamentary inquiries and intense media coverage in a landmark judgement the aid for Pergau was declared unlawful Tim Lankester offers a detailed case study of this major aid project and of government decision making in Britain and Malaysia Exposing the roles played by key politicians and other stakeholders on both sides he analyses the background to the aid arms linkage and the reasons why the British and Malaysian governments were so committed to the project before exploring the response of Britain's Parliament and its media and NGOs and the resultant legal case The main causes of the Pergau debacle are carefully drawn out from conflicting policy agendas within the British government to the power of the business lobby and the inability of Parliament to provide any serious challenge Finally Lankester asks whether given what was known at the time and what we know now he and his colleagues in Britain's aid ministry were correct in their objections to the project Pergau is still talked about as a prime example of how not to do aid Tim Lankester a key figure in the affair is perfectly placed to provide the definitive account At a time when aid budgets are under particular scrutiny it provides a cautionary tale
