Yoga Practice Advanced:

Mindfulness, Mind-body Exercises, and Health Promotion Guodong Zhang, Yang Cao, Zi Yan, 2025-02-14 High intensity sports and physical exercise have been linked to various health benefits. However, when it comes to increasing longevity, these activities may not be an ideal option for the general population. Mind-body exercise, which combines physical exercise with mindfulness, may be more effective in promoting and restoring health, especially for those with chronic symptoms or poor health conditions. Many mind-body exercises, such as Taichi, Qigong, Chan Chuang, and Yoga, have their roots in Eastern cultures. They have gained popularity around the world and became a new fashion in the post-COVID-19 era. These exercises typically help practitioners shift their focus from the outside world, past or future, to the present moment through gentle body movements. Mind-body exercises emphasize the body's innate ability to heal itself. By disconnecting from the noisy outside world, the body is given the opportunity to heal. This aligns with the classic belief in Chinese medicine that the body itself is the best medicine.

ANALYSIS OF LIPID, LIPOPROTEINS AND PHYSIOLOGICAL RESPONSES TO YOGIC PRACTICES IN MIDDLE AGED MEN AND WOMEN OF DIFFERENT AGE GROUPS Dr. I. Devi Vara Prasad, 2018-01-20

Healthy men and women together constitute wealthy mankind. The body of a woman is definitely very different from the body of a man as it has more duties to perform and greater weight to sustain. In fact, nature has given the woman's body a greater purpose to fulfill. A woman has to become a mother, and for that reason, nature has designed a special system for her. Men have more chances of going out, playing sports, and games, and taking a morning or evening walk. Most women are completely tied to their household duties and remain in the same environment all the time. They do not get as much time or as many opportunities for exercise as men do. Moreover, the system of a man is less complicated than the system of a woman. Good health means that all organs of the body are working efficiently. The important proverb is: Health is wealth; if health is lost, everything is lost, and is realized more in its absence than by its presence. Middle age is not a time of life; it is a state of mind.
