only as a physical environment but also as a multidimensional phenomenon that is shaped by human experience and gains meaning through social relations. By bringing together the perspectives of different disciplines such as architecture, interior architecture, and urban design, it aims to present a holistic approach that analyzes the social, cultural, and emotional aspects of space. Writing about space is not only about constructing a descriptive language but also about questioning it, making sense of it, and evaluating it from a critical perspective. This book, prepared by academics and researchers specialized in the field, allows the reader to establish intellectual connections at all scale levels and is supported by methods and examples that will contribute to academic and professional development. Providing practical solutions as well as theoretical knowledge, the book aims to foster user-centered design by encouraging interdisciplinary thinking.

Digital Nomads. How the era of digitalization creates alternative lifestyles Lisa-Marie Wagner, 2020-06-18. Bachelor Thesis from the year 2020 in the subject Business Economics, Business Management, Corporate Governance, grade 1.6, language English, abstract. In this paper, the phenomenon of digital nomadism in permanent employment is presented. In general, digital nomads are characterized by their independence of location, their employment in the digital space, and common values. Most of them are freelancers and entrepreneurs, but also employees who are part of this movement want to leave the conservative concept of normal employment and break new ground. First, the changes in the business world and the emergence of digital nomadism were presented in this paper. Due to a lack of literature, guideline-based expert interviews were conducted to gain insight into the opportunities and risks of the multi-local

lifestyle concept for employees and companies In addition the framework conditions for companies and digital nomads required by this work and life concept were examined and presented in detail Such a framework condition can mean for example the adaptation of processes and leadership There are also differences between completely remote companies and only partially remote companies which can lead to a split company structure In this context the similarities and differences between traditional telework and digital nomadism in permanent employment were also examined These are similar for example regarding the technical prerequisites that should be created in companies and the changed communication In addition there are challenges and opportunities that arise from the travel component and the nature of digital nomadism such as negatively impaired processes due to time differences or certain characteristics and experiences that digital nomads possess or experience that can be used positively in a professional context Thus this work not only serves a scientific purpose but also provides a practical framework for employing digital nomads in traditional companies
