Uber Fontane:

Theodor Fontane Brian Tucker,2021-06-03 What happens when fashionable forms of unserious speech prove to be contagious when they adulterate and weaken communicative spheres that rely on honesty trust and sincerity Demonstrating how the tension between irony and avowal constitutes a central conflict in Fontane s works this book argues that his best known society novels play out a struggle between the incompatible demands of these two modes of speaking Read in this light the novels identify an irreconcilable discrepancy between word and deed as both the root of emotional discord and the proximate cause of historical and political upheaval Given the alarm since 2016 over unreliability falsehood and indifference to truth it is now easier to perceive in Fontane s novels a profound concern about language that is not sincere and not meant to be taken literally For Fontane irony exemplifies a discrepancy between language and meaning a loosening of the ethical bond between words and the things to which they refer His novels investigate the extent to which human relationships can continue to function in the face of pervasive irony and the erosion of language s credibility Although Fontane is widely regarded as an ironic writer Tucker s analyses reveal a critical distance between his works and the prospect of irony as a dominant idiom Revisiting Fontane s novels in a post truth age brings the conflict between irony and avowal into sharper relief and makes legible the stakes and contours of our own post truth condition [Theodor Fontane as a Critic of the Drama](#) Bertha Eleanor Trebein,Eleanor Trebein,1916 [Theodor Fontane and the European Context](#) ,2021-12-28 On the centenary of Fontane s death and at the turn of the century these essays take a new look at this supreme chronicler of Prussia and of the Germany that emerges after 1871 Written by scholars from different countries and disciplines they focus on novels and theatre reviews from the perspectives of philosophy sociology comparative literature and translation theory and in the contexts of topography and painting Connections and crosscurrents emerge to reveal new aspects of Fontane s poetics and to produce contrasting but complementary readings of his novels He appears in the company of predecessors and contemporaries such as Scott Thackeray Saar Ibsen Turgenev but also in that of writers he has rarely if ever been seen beside such as E T A Hoffmann Stendhal Trollope Henry James and Edith Wharton Beckett and Faulkner The historical novel and the social position of women are each a recurring focus of interest Fontane emerges as receptive to other voices as a precursor of developments in modern narrative and confirmed as the novelist who brings the nineteenth century German novel closest to the broad traditions of European realism **Theodor Fontane as a Critic of the Drama** Bertha E. Trebein,1916 **MLN.** ,1923 **Narratives of Hope and Despair** Johanna M. Wagner,Melanie Duckworth,Deanna Benjamin,2025-10-14 In narratives of literature and cultural production hope and despair remain fundamental in exploring our world In recent years political polarization the Covid pandemic global warming and new and ongoing wars have contributed to global crises to which despair is an understandable response Yet hope is continually sought and proclaimed By examining tropes of ruin and regeneration in a wide selection of narratives including memoir graphic narratives fiction film

art radio plays culture rhetoric and discourse the book uncovers resonances between them The anthology moves from the personal to the collective addressing individual matters of the body and the mind societal visions of utopia and dystopia and finally hope and despair for the earth itself in representations of apocalypse and the Anthropocene This structure alongside the interdisciplinary nature of the project maps dynamic international perspectives in which hope and despair flow across and through personal social and earthly concerns The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

The Changing Image of Theodor Fontane Helen Chambers, 1997 Wide ranging survey of the criticism devoted to Theodor Fontane with particular emphasis on more recent theoretical trends This study of the literary scholarship on Fontane's narrative works is the first to present a systematic review of the ever growing body of criticism on Germany's major realist novelist Significant developments in Fontane criticism are traced in historical context from their beginnings in contemporary commentary to the present day The author places special emphasis on scholarship since 1980 analysing the influence of new literary critical trends in this period she also considers the effect upon traditional literary criticism of feminism psychoanalysis and comparatist approaches and the fresh developments in reception history translation and media studies
