Simon, 2007-06-30 The tools of reason offer the best hope for the international community to confront the increasing incidents of hate throughout the world A historically informed normative examination of the elements of the crime of genocide provides an excellent case study of how the law reasons handmaiden enhances understanding and improves practical ways of dealing with global injustices How should we confront hate As political activists we could resort to fighting hate with hate As concerned citizens we could consciously ignore or actively protest hate As committed educators we could put the implements and survivors of hate on display As committed scholars we could resuscitate the idea of evil As humanitarian jurists we could put individual hate mongers on trial Part I of this book makes a case for making the maximum use of reason to deal with hate This means that we should actively debate those who promote hate Further as a close look at the history of applying law to incidents of hate and violence illustrates the courtroom proves to be an excellent place to demonstrate the virtues of applying the tools of reason not to global evils but to the grave injustices of the world In Part II Simon demonstrates the power of legal analysis in enhancing our understanding of genocide probably the worst injustice imaginable A close examination of each purported element of the crime of genocide redirects misguided turns taken by international jurists Contrary to a more realistic perspective adopted at the Nuremberg trials jurists have mistakenly modeled international criminal law on national criminal law which focuses on individual responsibility However the cases of grave injustices throughout the 20th century amply demonstrate the primary collective responsibility underlying incidences of genocide The failure to prosecute criminal organizations for genocide has and will continue to have disastrous results While the Nuremberg tribunal at least disbanded the responsible Nazi organizations current war crimes tribunals have allowed organizations responsible for the Rwandan genocide to continue to wreak havoc throughout Central Africa If the international community cannot forge a common understanding of genocide then it has little hope of establishing an international legal order or a global ethics      *Gathered in my Name* William T. Cavanaugh, 2020-12-28 This volume

differs from many quincennial discussions of the Protestant Reformation and ecumenical scholarship more generally in that it shifts the focus from Europe and the West to the global South where ecumenism's promises and challenges are quite different. In postcolonial and post-missionary Africa, the churches continue to expand, competition among denominations is lively, and Christian rivalry with Islam is often a reality. In Latin America, Protestants have severely eroded the Catholic Church's hegemony originally forged in the zeal of the Counter-Reformation to combat the perceived errors of Luther and Calvin. In India, the Christian churches are a tiny beleaguered minority facing an increasingly militant Hindu nationalism. These essays pay close attention to the different contexts of intra-Christian relationships worldwide; the actual situation on the ground. If ecumenism will succeed, it cannot be simply a matter of experts at a conference attempting to agree about doctrines abstracted from the contexts in which they were forged, the contexts in which doctrinal disagreements caused ecclesial ruptures, or the contexts in which Christians continue to live out our divided existence. This volume attempts to be sensitive to the lived experience of divided Christians in whatever part of the world they find themselves.

**The Vitality of Karamojong Religion** Ben Knighton, 2017-05-15. How long can a traditional religion survive the impact of world religions, state hegemony, and globalization? The Karamoja problem is one that has perplexed colonial and independent governments alike. Now Karamojong notoriety for armed cattle raiding has attracted the attention of the UN and USAID since the proliferation of small arms in the pastoralist belt across Africa from Sudan to stateless Somalia is deemed a threat to world security. The consequences are ethnocidal, but what makes African peoples stand out against state and global governance? The traditional African religion of the Karamojong, despite the multiple external influences of the twentieth century and earlier, has remained at the heart of their culture as it has changed through time. Drawing on oral accounts and the language itself, as well as his extensive experience of living and working in the region, Knighton avoids Western perspectivism to highlight the successful reassertion of African beliefs and values over repeated attempts by interventionists to replace or subvert them. Knighton argues that the religious aspect of Karamojong culture, with its persistent faith dimension, is one of the key factors that have enabled them to maintain their amazing degree of religious, political, and military autonomy in the postmodern world. Using historical and

anthropological approaches the real continuities within the culture and the reasons for mysterious vitality of Karamojong religion are explored *Uganda* Balam Nyeko,1996 In recent years Uganda has almost become a byword for political instability economic mismanagement and poverty and the complete breakdown of law and order A country once described as the pearl of Africa has certainly lost any claim to the status The country is now in the process of making a slow effort towards recovery and a return to more normal conditions This new and completely revised edition of Uganda presents over 700 annotated items including books and scholarly articles *Transnationale Geschichte* Gunilla Budde (Historikerin),Sebastian Conrad,Oliver Janz,2006 English summary This volume discusses and compares alternative approaches of a trans national historiography from comparative history to histories of Europe post colonial studies and global history German description Die Internationalisierung der Geschichtswissenschaft schreitet voran Zunehmend orientiert sie sich an transnationalen Fragestellungen und globalen Zusammenhängen Dieser Band zieht eine Zwischenbilanz der aktuellen Entwicklung Vom historischen Vergleich über die europäische Geschichte und die Postcolonial Studies bis zu globalgeschichtlichen Perspektiven stellen die Autoren die wichtigsten Konzepte einer transnationalen Historiographie vor Daneben werden Felder der Geschichtswissenschaft behandelt in denen transnationale Perspektiven eine lange Tradition haben wie die jüdische Geschichte die Intellectual History die Geschichte multinationaler Unternehmen und die Konsumgeschichte oder vergleichende und beziehungsgeschichtliche Fragen in den letzten Jahren erheblich an Bedeutung gewonnen haben wie die historische Nationalismusforschung die Arbeitergeschichte die Geschichte der Zivilgesellschaft oder die Geschichte kollektiver Erinnerungen Schliesslich werden Ansätze wie die Kulturgeschichte oder die Mikrogeschichte die sich gegen internationalisierende Zugriffe zu sperren scheinen in ihrer transnationalen Dimension diskutiert **Human Rights in Uganda from the Colonial Period to the Present** ,1993 [Human Rights in Uganda from Independence to the Present \(1962-\)](#) ,1992 [Gifts from Amin](#) Shezan Muhammedi,2022-09-02 In August 1972 military leader and despot Idi Amin expelled Asian Ugandans from the country professing to return control of the economy to Ugandan citizens Within ninety days 50 000 Ugandans of South Asian descent were forced to leave and seek asylum elsewhere nearly 8 000 resettled in Canada This major migration event marked the first time Canada accepted a large group of predominantly Muslim non European non white refugees Shezan Muhammedi s Gifts from Amin documents how these women children and men including doctors engineers business leaders and members of Muhammedi s own family responded to the threat in Uganda and rebuilt their lives in Canada Building on extensive archival research and oral histories Muhammedi provides a nuanced case study on the relationship between public policy refugee resettlement and assimilation tactics in the twentieth century He demonstrates how displaced peoples adeptly maintain multiple regional ethnic and religious identities while negotiating new citizenship Not passive recipients of international aid Ugandan Asian refugees navigated various bureaucratic processes to secure safe passage to Canada applied for family reunification and made concerted efforts to integrate into and give back

to Canadian society all the while reshaping Canada's refugee policies in ways still evident today As the numbers of forcibly displaced people around the world continue to rise Muhammedi's analysis of policymaking and refugee experience is eminently relevant The first major oral history project dedicated to the stories of Ugandan Asian refugees in Canada Gifts from Amin explores the historical context of their expulsion from Uganda the multiple motivations behind Canada's decision to admit them and their resilience over the past fifty years
