Voodoo Economics:

Against Empire Michael Parenti, 1995-05 Recommended by Jeff City Lights Books Richly informed and written in an engaging style *Against Empire* exposes the ruthless agenda and hidden costs of the U S empire today Documenting the pretexts and lies used to justify violent intervention and maldevelopment abroad Parenti shows how the conversion to a global economy is a victory of finance capital over democracy As much of the world suffers unspeakable misery and the Third Worldization of the United States accelerates civil society is impoverished by policies that benefit rich and powerful transnational corporations and the national security state Hard won gains made by ordinary people are swept away

War and Peace Howard Fast, 2016-09-16 In more than 100 essays written over a three year period for the New York Observer Howard Fast looks with horror at the official violence inflicted on Nicaragua El Salvador Grenada Panama and Iraq and the unofficial violence that is taking place in the cities of the United States In *War and Peace* Fast summons us to face the wars and the social disintegration that degraded the Reagan and Bush years with all the explanations and excuses stripped away He dwells on the monumental folly of the Cold War and shows us repeatedly what we could have done with the billions spent on planes bombs and guns if we had spent them on the education and safety of our children on housing medical care rebuilding the cities and what we can still do in the future As in Swift Yahoos populate the essays of this book the drug dealers the local political hacks the anti Semites the racists the women bashers the arms traffickers the whole unsavory cast As in Mencken boobs run loose in the White House and in the halls of Congress From time to time a Candide like character named D emas Yiddish for the the truth appears and asks embarrassing questions about the ways of our civilisation which his interlocutor is hard pressed to answer And yet after Howard Fast recounts the inanity and brutality of these years he offers a humane vision of what America and the rest of the world could be These essays should hold a place in 20th century letters as a statement of unsurpassed passion on the theme war and peace

Real Cities Steve Pile, 2005-05-01 What is real about city life *Real Cities* shows why it is necessary to take seriously the more imaginary fantastic and emotional aspects of city life Drawing inspiration from the work of Walter Benjamin Sigmund Freud and Georg Simmel Pile explores the dream like and ghost like experiences of the city Such experiences are he argues best described as phantasmagorias The phantasmagorias of city life though commonplace are far from self evident and little understood This book is a path breaking exploration of urban phantasmagorias grounded empirically in a series of unusual and exciting case studies In this study four substantial phantasmagorias are identified dreams magic vampires and ghosts The investigation of each phantasmagoria is developed using a wide variety of clear examples Thus voodoo in New York and New Orleans shows how ideas about magic are forged within cities Meanwhile vampires reveal how specific fears about sex and death are expressed within and circulate between cities such as London and Singapore Taken together such examples build a unique picture of the diverse roles of the imaginary fantastic and the emotional in modern city life What is real about the city has radical consequences for how we

think about improving city life for all too often these are over looked in utopian schemes for the city Real Cities forcefully argues that an appreciation of urban phantasmagorias must be central to what is considered real about city life

Faith and Politics in America X.M.,Dr X M,2005-05-25 The 2004 election indicated a shift in American politics a return to moral values as the basis for electing our representatives But which party was really more driven by moral values For those who voted Republican this book confirms what we knew all along the election was about moral values and morality won But this was only the first step we really should be analyzing all political issues based on moral principles and selecting our political representatives accordingly For those who voted Democrat we know that our choice was also made based on moral values and we cannot believe how Christians could have voted any differently on many issues This book analyzes each political issue in the context of the Bible and attempts to determine the most Christian position It is apparent that both parties still have a long ways to go to fully adhere to religious teachings but in the end agreeing on moral positions for each issue could bring both parties closer together and allow America to stand united once again
